## COMPROMISE IN SIGHT IN SHIP BOARD TROUBLE

Objection Caused by "Unani-  
mous Consent on Sale of  
Ships" Clause

## CHANGE TO BE MADE New Plan Calls for Vote of Five of Seven Members In- stead of Entire Board

BY DAVID LAWRENCE  
Copyright 1928 Post Pub. Co.  
Washington—A compromise between  
the crew of the house and senate on  
shipping legislation is in sight. The  
principal objection to the bill that  
passed the senate was that feature  
which required unanimous consent on  
the part of the shipping board before  
any sale of government ships could be  
approved. The suggestion now ad-  
vanced is that the sale must have the  
concurrence of at least five of the  
seven members of the board. This is  
really only one more vote than heretofore required and is said to be satis-  
factory to both sides in the con-  
troversy.

## WANT GOOD PRICE The difficulty over the selling of ships has been the persistent view of some members that the ships ought not to be disposed of at prices that were unreasonably low or to companies which could not assure the mainte- nance of the trade routes under the Ameri- can flag.

Charges and counter-charges have  
been made that in appointing members  
of the board, the chief executive has  
ascertained the views of prospective  
members and appointed them accord-  
ing to the views of the chief executive  
in private operation and ownership and  
away from government operation.

The pending legislation is contrary  
to the expressed views of President  
Coolidge in that it recognizes a failure  
on the part of private shipping inter-  
ests to come forward and purchase the  
fleet and establish a new marine  
under the American flag, and hence  
now makes provision for replacing  
existing cargo carriers and recon-  
ditioning some of the old ships. No spe-  
cific amounts are appropriated as the  
bill originated in the senate but the  
understanding is that the inter-  
est laid down, the house will be asked to  
appropriate the necessary funds for  
each specific item of enlargement of  
the fleet.

**END HEARINGS**  
The hearings before the House Mer-  
chant Marine committee, expected to  
be concluded this week and some ac-  
tion on the measure to be reported is  
hoped for within the next few weeks.  
Some of the features which the house  
is expected to add to the senate bill  
are those relating to ten-year instead  
of five-year terms for the vessels and  
a provision permitting private inter-  
ests to build ships with money borrowed  
from the government at the same  
interest rate that the government pays,  
which is approximately three per cent.  
Instead of the four and one quarter  
per cent imposed by the shipping act for  
vessels to be engaged in the inter-  
oceanic trade, and five percent for those  
constructed for the coastwise trade.

## SEATTLE WOMAN MAYOR BEATEN FOR REELECTION

Seattle, Wash.—(AP)—Mrs. Bertha K.  
Landes, first woman mayor of a  
metropolitan city in the United States,  
was overwhelmingly defeated for re-  
election as Seattle's chief executive  
Tuesday by Frank Edwards, a dark  
horse candidate.

The mayor-elect, who takes office in  
June, won after an intense campaign,  
which brought nearly 10,000 persons to  
the polls, setting a new record in Se-  
attle's municipal elections. A majority  
of 19,000 votes for Edwards, a retired  
theatre operator, surpassed expecta-  
tions of his own managers.

Complete unofficial returns gave Ed-  
wards 59,033 votes and Mrs. Landes 39,-  
889. This total of 98,922, surpassed by  
more than 4,000 the previous high  
vote of 94,882 two years ago.

## SEIFERT FRIENDS FAIL TO GAIN IN ELECTIONS

Milwaukee.—(AP)—Friends and op-  
ponents of Edward C. Seifert, ex-  
superintendent of Cudahy schools,  
battled to a draw in the primary elec-  
tions at Cudahy Tuesday. The con-  
test was in the school election.

Three candidates favoring Seifert  
were nominated. So were the three  
who opposed him. "Neutral" candi-  
dates were eliminated.

"The total vote of the Seifert op-  
ponents showed slightly more strength  
than that of his supporters."

## DECIDE TO BLAST MOUNT TO PREVENT NEW SLIDE

Santos, Brazil.—(AP)—In the fear that  
Mount Serra would tumble about their  
heads without warning, the people of  
Santos prepared Wednesday to dynamite  
the mountain, so that they would not  
be caught unawares by disaster again.

Torrential rains Tuesday night halt-  
ed digging for bodies of the victims of  
Saturday's slide. A check showed  
that 53 bodies had been recovered and  
it was believed at least 100 more  
were still buried.

## English Flier Missing In Flight To U.S.

### BRITISH SHIP BEHIND TIME IN OCEAN TRIP

Still Hope for Flyers Who  
Were to Reach Nova Sco-  
tia Wednesday Morning

New York.—(AP)—Public concern  
manifested itself Wednesday as the  
hours passed without word from  
the black and gold monoplane  
Endeavor, which took the air in Eng-  
land Tuesday to try an uncrossed  
western air passage of the Atlantic,  
but aviators still believed at noon  
that there was plenty of hope.

Although freely acknowledging the  
absence of any report of the plane  
was disheartening, they computed  
that weather conditions might have  
so slowed down progress that the  
plane would not reach land until early  
afternoon, and that after sighting  
land it would be possible for the plane  
to continue without being sighted if  
it was flying anywhere near its cal-  
culation of 14,000 feet.

The Endeavor, piloted by Capt. Wal-  
ter Hinchliffe and believed to have on  
board the Hon. Elsie Mackay, sponsor  
of the flight, had enough fuel to  
last until about 7 o'clock Wednesday  
night.

If the plane's cruising speed of 105  
miles an hour had been maintained,  
the Endeavor would have arrived at  
Newfoundland between 4 and 6 Wed-  
nesday morning. But if weather con-  
ditions held the speed down to 80 miles  
the flight would not have sighted  
Newfoundland until 9.

### REPORT HEAVY FOG

Fog was reported between New-  
foundland and New York and it will  
be possible that the flight be made  
without anyone below sighting the plane.

Since the Endeavor took off at 4:40  
in the morning, Eastern standard  
time Tuesday, no positive word of her  
has been received. In Ireland a plane  
was seen flying westward but it was  
not definitely identified as Hinchliffe's.  
Off the Irish coast a steamer saw a  
plane but was not identified.

### LINEUP MISS PLANE

Liners proceeding along the great  
circle course reported that they saw  
nothing of the plane and one ship told  
of a gale it was encountering.

The commander of the Hamburg-  
American liner, Deutschland, reported  
in a wireless message at 1 o'clock  
Wednesday morning that he had seen  
no sign of the plane.

The vessel is due in New York about  
Monday and Wednesday in mid-At-  
lantic found visibility good, with a  
light wind from the north, northwest.

A little earlier the White Star line  
Cedric, 500 miles out of New York  
and somewhat south of the probable  
flight route, had not seen the plane  
and was running into a north gale.

Last reports from Newfoundland  
were of clear weather but with snow  
deep on landing fields. Along the  
New England and Long Island coast,  
however, there was fog and a threat  
of rain.

## COUPLE ELECTROCUTED BY WIRE IN BASEMENT

Marquette, Mich.—(AP)—Just a  
few minutes after her husband had  
been electrocuted in the basement of  
the home here Tuesday, Mrs. John  
Koss touched the same wire and was  
instantly killed.

Because he wore rubbers, Matt  
Kaki, a neighbor summoned by Mrs.  
Koss was saved from a similar fate.

Investigation disclosed a piece of  
hay wire had caused a short-circuit of  
a 2,200-volt power line.

## FIRE DESTROYS PLANT, CAUSES \$75,000 LOSS

Kenosha.—(AP)—Fire of unknown  
origin destroyed the onion sets ware-  
house of Kirby and Company seven  
miles west of here Tuesday night and  
brought a total loss estimated at \$75,-  
000.

The ware house was said to be the  
largest onion sets warehouse in Wis-  
consin. Flames from the burning  
building were visible at Racine, nearly  
15 miles away. Lack of fire-fighting  
facilities made it impossible to control  
the blaze.

Owners of the warehouse said there  
were 30,000 onion sets stored in the  
building.

## Million Dollars In Four Days For Old Ticket Agent

New York.—(AP)—A man who 20  
years ago was selling tickets at a  
Broadway theatrical ticket agency,  
Wednesday was credited with putting  
over one of the most sensational  
coups in Wall-st. history.

He is Michael J. Meehan, who al-  
most singlehandedly engineered the  
sensational rise in Radio Common  
which carried the stock up 50 points  
in four trading days, brought him a  
fortune of millions of dollars and a  
severe case of nerves.

Just how much he has made in the  
past four days, which have seen the  
exchange record for sales volume  
twice broken, he probably does not  
know himself and estimates in the  
street run from \$5,000,000 to \$15,000,-  
000.

He has pushed Durant, Livermore,  
Cutter and the Fisher brothers into  
the background and Wednesday is  
the "biggest man" in speculative  
Wall-st.

### OUTSTANDING DARING

He literally and actually "made the  
move" in Radio, gave most of the or-  
ders, filled most of the bids and  
churned the stock around at a million  
dollar clip which left Wall-st. gasp-  
ing and trying to guess what "Mike"  
Meehan would do next. Even the  
bears who have taken one of the  
worst whippings in years, pay tribute  
to the dashing drive that for daring  
and success is outstanding.

Twenty years ago, when passing  
out tickets Meehan met Charles Mor-  
gan, one time newspaper man and later  
a big scale stock broker.

### STARTED WITH MORGAN

Morgan at the time was in the mar-  
ket and Meehan went to work for him  
handling a few wires on the curb  
the floor. After several years he start-  
ed out for himself with little suc-  
cess. He had one severe setback but with  
the aid of a few friends staged a  
comeback and eight years ago bought  
a seat on the exchange when they  
were selling between \$85,000 and  
\$115,000.

He made progress slowly but fin-

ally became a specialist in Radio  
Common and immediately became  
bullish.

He started his accumulation of the  
stock at around \$5 or \$6. Radio start-  
ed out quietly when General Motors  
began to move two weeks ago. Then  
quicking its pace it went on a ramp-  
age of its own which brought it to  
\$85.25 last Thursday to a close of \$148  
a share Tuesday. At one time it  
reached \$160.

## HOAN CARRIES PRIMARIES BY 13,000 MARGIN

Milwaukee's Socialist Mayor  
of Last 12 Years Leads  
Sheriff Charles Schallitz

Milwaukee.—(AP)—Mayor Daniel W.  
Hoan, Socialist chief executive of  
Milwaukee for the last 12 years, won  
a 13,000 vote lead in the primaries  
Tuesday. He will be opposed for re-  
election in the general election by  
Sheriff Charles Schallitz, Non-parti-  
san.

Unofficial returns from the city pri-  
mary, compiled early Wednesday  
gave Hoan a 13,000 vote lead over  
Schallitz. Edward Schubert, the third  
candidate, was eliminated.  
Schallitz carried only three of the  
city's 25 wards. Mayor Hoan received  
42,516 votes; Schallitz 28,551 and  
Schubert 2,451.

Several wards normally giving ma-  
jorities to the candidates opposed to  
the Socialist party were carried by  
Hoan. One of these was the Eight-  
teenth ward, a district which usually  
gives a large majority to the Non-par-  
tisan candidate. Hoan's vote in this  
ward was 250 in excess of that of his  
two opponents. Two other wards nor-  
mally voting against the Socialists  
were carried by Hoan.

### NON-PARTISANS LEAD

Non-partisan candidates for other  
city offices polled from 11,000 to 23,-  
000 more votes than their Socialist  
opponents. John M. Niven, present  
city attorney, had 37,381 votes to 26,  
150 for Judge William F. Quick, non-  
partisan city treasurer, obtained  
23,000 more votes than John Rutkow-  
ski, Socialist, the other nominee.

Louis M. Koticki, Non-partisan city  
comptroller had 17,000 more votes  
than William H. Tesch, Socialist.  
Elimination of Socialist candidates  
for alderman in seven wards marked  
the aldermanic primary. Among those  
eliminated were State Senator Walter  
Tolakowski, in the Eighth ward.

With the exception of Alderman  
Louis Weiss, Socialist, all of the pre-  
sent members of the city council seek-  
ing reelection were successful in win-  
ning nominations.

## RACINE CITY TREASURER SETS NEW VOTE RECORD

Racine.—(AP)—In a quiet primary  
election, featured only by aldermanic  
contests, A. J. Eisenhut, present city  
treasurer, was renominated for that  
office without opposition. His vote of  
4,873 was the highest polled.

There were only two candidates for  
each of the other two offices aside from  
aldermanic posts which were voted on  
in the primary: Constable and Justice  
of the Peace.

Assemblyman Edward Hilker was  
nominated to oppose Alderman William  
Miller in the eighth ward. He had a  
lead of about 100 votes over Miller.

## 16-MONTH OLD BADGER BABY BURNS TO DEATH

Winona, Minn.—(AP)—Burns suffered  
when paper with which he was playing  
was ignited by a hot stove caused  
the death here Tuesday of 16-month old  
Leonard Wicka, son of Mr. and Mrs.  
William Wicka of Dodge, Wis., near  
here. The child's nine-year old brother  
rushed to a pump in the yard and  
drew a pall of water which he threw  
over Leonard to extinguish the flames.

## U. S. Population Grows 14 Per Cent Since 1920

Washington.—(AP)—A provisional es-  
timate by the census bureau Wednes-  
day placed the population of the United  
States as of July 1, 1928 at 120,-  
013,000, an increase of 14 per cent  
over the 105,710,620 actual count on  
January 1, 1920. The next federal  
census will not be taken before 1930.

The new total was arrived at by ex-  
trapolating the increase since 1920 on  
the basis of the best available returns  
on births, deaths, immigration and  
emigration.

The bureau also apportioned the in-  
crease on this basis for the 48 states  
and the District of Columbia.

## Poor Otto! He Lost In Mayor Race

Man Who Furnished West  
Allis' Most Picturesque  
Campaign, Third in Primary

Milwaukee.—(AP)—The tumult and  
the shouting is finished in West Allis.  
And Otto Conrad, who waged his cam-  
paign for mayor with dances, music  
and nails will not be a candidate in  
the final election.

Otto was eliminated from the pri-  
maries Tuesday. His rival, O. O. In-  
man, a former preacher whom he in-  
sulted and Otto Conrad, against whom  
Otto threw charges of waste, were  
nominated.

With Otto's warning that if they  
did not nominate him they would  
"break his heart" ringing in their  
ears and with often a package of the  
nails Otto gave away at his meeting  
in use at home, the voters went to  
the polls and cast 3,351 votes for Mil-  
ler; 2,576 for Inman and 1,132 for  
Conrad.

Otto furnished West Allis with one  
of its most picturesque campaigns.  
He gave away nails free to vis-  
itors at his meetings; he had  
community singing; he launched  
barbed charges against Miller and  
Inman; he promised progress for  
West Allis if he were elected  
and he averred that along with  
his campaign he intended to get him-  
self a wife.

Whether or not he got the wife has  
not been announced.

## CALL HAYS "FENCE" IN SINCLAIR CASE

Accuse Former G. O. P. Lead-  
er of Disposing of Stolen  
Liberty Bonds

Washington.—(AP)—The Teapot  
Dome oil scandal again was aired on  
the floor of the senate Wednesday,  
when Senator Caraway, Democrat,  
Arkansas, declared that Will H. Hays,  
former chairman of the Republican  
national committee, acted as a fence  
in disposing of the \$160,000 in Liberty  
bonds given the committee by Harry  
F. Sinclair.

"Recent investigations have dis-  
closed the fact that Albert B. Fall  
was more guilty than at first  
thought," Caraway said.

"He was not alone in the Teapot  
Dome transaction. Will Hays had full  
knowledge that the bonds were a part  
of the price of the Teapot Dome lease  
and investigations have disclosed that  
at least four cabinet members had  
knowledge of the transaction.

"Will Hays was a fence, disposing  
of stolen goods and aiding the thief to  
find a market. Some of the bonds  
were sent to Secretary Mellon. He re-  
fused to disclose that information and  
after them back to the fence."

### MOVE TO CHICAGO

After a time hearing Wednesday  
the senate committee turned its quest  
for the Continental Trading Company  
bonds toward Chicago, where its next  
meeting will be held Thursday morn-  
ing.

A. V. Leonard, secretary to the late  
Fred W. Upham, treasurer of the Re-  
publican national committee, Wednes-  
day's lone witness, testified that he  
knew nothing of Sinclair's Liberty  
bonds sent to Upham by Will H. Hays,  
who was chairman of the committee  
during the Harding campaign.

## COOLIDGE SIGNS BILL FOR MARINETTE BRIDGE

Washington.—(AP)—President Coolidge Tuesday signed a bill authorizing  
the state of Wisconsin and Michigan  
to construct and operate a bridge  
across the Menominee river at Mari-  
nette, Wis.

## IOWA GOVERNOR SIGNS LARGE ROAD BOND BILL

Des Moines, Iowa.—(AP)—Governor  
John Hammond shortly before 1 o'clock  
Wednesday afternoon signed the \$100,-  
000,000 state road bond bill passed by  
the extra session of the Iowa legisla-  
ture.

## THE TABLE

The following table shows the actual census of 1920 for Wisconsin and nearby states being made by distrib- uting the total increase of the United States upon the basis of the increase by states from 1910 to 1920.			
Jan. 1, 1920	Jan. 1, 1928	1920-28	1928-30
Wisconsin	2,632,667	2,553,000	2,553,000
Illinois	5,845,280	7,398,000	7,398,000
Michigan	2,688,412	4,591,000	4,591,000
Minnesota	2,387,125	2,722,000	2,722,000

## RULE RUNS 419 VOTES AHEAD OF J. A. HAWES

Callahan Eliminated as Alder-  
manic Candidate in  
Fourth Ward Contest

NOMINEES  
FOR MAYOR  
Albert C. Rule, J. Austin Hawes  
FOR TREASURER  
Fred Bachman, T. H. Brunke  
FOR CITY ATTORNEY  
Alfred C. Bosser  
FOR ASSESSOR  
George F. Butler  
FOR ALDERMEN

First ward—Marcus Steinhauer, C.  
W. Zelle.  
Second ward, short term—John  
Dierdick, Oren Earle; long term—  
Charles D. Thompson, H. F. Losel-  
young.

Third ward—George T. Richard, R.  
H. Wheeler.  
Fourth ward—C. J. Wassenberg,  
George Bratting.

Fifth ward—Wenzel J. Hassman,  
H. J. Prebe.  
Sixth ward—Fred Wiese, Richard  
Koffke.

There will be at least one new alder-  
man on the city council next year,  
it was indicated Tuesday night when a  
count of votes revealed that Jerry  
Callahan, alderman from the Fourth  
ward had been defeated for nomi-  
nation by George Bratting and C. J.  
Wassenberg. All other incumbent of-  
ficers survived the primaries.

Mayor A. C. Rule ran about 420  
votes ahead of J. Austin Hawes, car-  
rying four of the six wards and pol-  
ling an even 2,000 votes. Hawes ran  
ahead of his opponent in the Third  
and Fifth wards and received 1,581  
votes in all the precincts.

Only a third of the city's voters  
went to the polls at the primaries.  
The total vote was just a little more  
than 2,800 and there are more than  
9,000 registered.

Ninety voters wrote in the name of  
John Goodland for mayor but he did  
not receive a sufficient number of  
votes to place his name on the ballot  
for the April election. Mr. Goodland  
withdrew from the majority race after  
the city attorney ruled he had  
filed his nomination papers too late  
to get under the wire.

### CANDIDATES FOR ALDERMEN

In the First ward will be Marcus Steinhauer  
and C. W. Zelle who polled 275 and 136  
votes respectively. They defeated W. C.  
Donstett with 62 votes and E.  
M. Shoemaker with 109 votes.

In the Second ward, Oren Earle will  
poll 181 in the final race for alder-  
man. He was defeated by George  
Bratting, who polled 189 as compared with  
297 for Earle. Charles D. Thompson,  
incumbent, and H. F. Loselyoung  
were nominated for the long term  
with 220 and 84 votes respectively.  
Loselyoung barely eked out a victory  
over Frank Young who polled 83  
votes.

The Third ward nominees are  
George T. Richard and R. H. Wheeler.  
The former polled 355 votes and the  
latter 232. There were nine seat-  
tered votes in this ward.

In the Fourth ward, C. J. Wassenberg  
received 195, the largest number of votes cast in the  
city.

## TWO FARMERS DROWNED IN OVERFLOWING CREEK

Friendship.—(AP)—Hastening to meet  
a train, two Adams co farmers were  
drowned Tuesday afternoon morning  
when their automobile struck a wash-  
out at the east end of the Rochester  
creek bridge here and plunged into the  
creek.

William Brock, 65 of Beloit, and his  
half brother, Jesse, 35, a farmer near  
here were the men drowned. Cecil  
Renner, 27, was rescued from the  
wallowing waters of the creek.

Apparently not hearing warning  
shouts from men stationed on the road  
to prevent motorists from attempting  
to cross the bridge, the trio drove their  
car into the washout. Renner was  
saved when he extricated himself from  
the open car and swam downstream,  
where he was rescued.

The body of William Brock was re-  
covered Wednesday morning. The body  
of his half brother, Jesse, has not yet  
been recovered. There was about 10  
feet of water in the creek, swollen by  
recent rains and melting snows.

The dam above the bridge went ear-  
ly Wednesday and the rush of water  
washed out a wide section at the east  
end of the bridge.

## VOTERS FAVOR MOVE TO TAKE NORTH MILWAUKEE

Milwaukee.—(AP)—Friends of the  
movement to annex North Milwaukee  
to Milwaukee voted up large margins  
in the primary election Tuesday, com-  
plete unofficial returns indicate. Loui-  
s. C. Fuhrman running for mayor on  
an annexation platform, obtained near-  
ly 700 more votes than his opponent  
Alderman Otto Frey, the other nomi-  
nee.

## A HINDU NOW

Nash, India.—(AP)—Jovial at the  
fulfillment of a girlhood dream, Miss  
Nancy Ann Miller of Seattle Wednes-  
day was a Hindu and qualified to  
marry Tukoo Rao, former Maharaja  
of Indore. Her name is now Devi  
Sharmista, a famous queen of India  
centuries before Christ. The mar-  
riage will be Saturday.

## DOGS IN RACE WITH DEATH TO BURIED TOWN

Disease and Famine Stalks  
Michigan Villagers Iso-  
lated by Deep Snow

Sault Ste. Marie, Mich.—(AP)—Use  
of a dog sled in what may prove to  
be a race with death to the snow-  
bound and famine-threatened village  
of Detour was planned Wednesday  
following the receipt of word by tele-  
phone that two persons in the isolated  
area were critically ill.

The sled, to be drawn by seven husky  
dogs and guided by Dr. John P.  
Dendiman, veteran dog owner and pi-  
oneer prospector, was to carry 100  
pounds of food, tobacco and medicine  
in a 60-mile race to the stricken  
town, now seriously faced with suf-  
fering from hunger and cold.

Dr. Dendiman, accompanied by F.  
W. Leuning of Milwaukee, planned to  
begin the trip Wednesday afternoon.  
They were to carry medicine for Mrs.  
Walton Hanson of Taher, near De-  
tour, who is critically ill, and Russell  
Goetz, suffering from a serious throat  
infection at Detour.

An airplane could not be sent be-  
cause Thursday. Additional snow began  
falling to increase peril of the vil-  
lage marooned since Feb. 25.

Volunteers were added Wednesday to  
the list of sleds which have become  
exhausted in Detour. The 500 vol-  
unteers have been on a food rationing  
basis for several days.

Using the telephone, the only means  
by which the stricken village can  
communicate with the outside world,  
Dr. Arthur E. Hayes, pastor of St.  
Stephen's Episcopal church in De-  
tour, said:

"The world may get the idea that this  
food shortage is a joke and relief  
may be delayed as a result of that.  
But in saying it is a serious matter."  
Under direction of John McGuire,  
village pro-vent, the male inhabitants  
of the village Wednesday purchased a  
field a half mile square for the land-  
ing of an airplane in the event any  
should arrive.

The threat of a fuel famine added to  
the food shortage problem.  
Government transport planes, that  
were ordered to take mail and food in-  
to the snowbound district from Sault  
Ste. Marie, have thus far been un-  
able to make the journey, due to the  
hazardous flying conditions.

A number of high power snow plows  
being shipped into the district by state  
officials are expected to begin opera-  
tions by Thursday in an effort to open  
road communication.

## LARRY SEMON FILES BANKRUPTCY PAPERS

Los Angeles.—(AP)—Larry Semon,  
featured film comedian who often has  
been featured in troublous doings on

## REYNOLDS STUMPING FOR SENATOR NORRIS

State Attorney General Will  
Address Little Chute Audi-  
ence Saturday

John W. Reynolds, Green Bay, state attorney general, will be the principal speaker at a Progressive Republican political rally at Lamer's hall, Little Chute, Saturday evening, according to an announcement made Tuesday by Anton Jansen, village president.

Between 200 and 300 people are expected at the meeting, which is being sponsored by the Progressive Republican organization at Little Chute, Mr. Jansen said. The meeting will start at 8 o'clock and Mr. Jansen is to preside.

Mr. Reynolds' address will be a part of the campaign for election of Progressive Republicans as presidential delegates to the national convention next June. The progressives are supporting Senator George W. Norris of Nebraska. Delegates from this district are Dr. W. C. Sullivan, Kaukauna, and William Geuerke, Sturgeon Bay.

Dr. Sullivan and Anton Miller, assemblyman from the second Outagamie-co district, are to attend the rally also.

## USE DELINQUENT TAX LANDS FOR FORESTS

Attorney Generals Ruling to  
Nagler Is Important One for  
Reforestation

Madison—(P)—A large acreage of Wisconsin's timber-covered land is thrown open to reforestation methods by an opinion of the attorney general, which holds that delinquent tax lands taken over by counties of the state may be entered under the forest crop law.

The legal department's opinion was given upon request of Louis B. Nagler, director of conservation whose department is charged with carrying out the provisions of the law.

Under the provisions of the statute, the owner of any tract of land not less than 160 acres in size may file with the conservation commission a petition stating that he believes the land to be more useful for growing timber and other forest crops than for other purposes and that he intends to practice forestry on it.

If the commission finds that the land will produce a stand of merchantable timber, the property is entered under the forest crop arrangement.

Counties may avail themselves of the same privilege, the tax of ten cents an acre must be paid by the county and the state the same as though the lands were privately owned, the legal department's ruling holds. The object of the legislature in providing the tax was to insure payment of tax revenues to the local tax unit.

## ARRANGE PROGRAM FOR PARENT-TEACHER CLUB

The parent-teachers association of Woodlawn school will hold a monthly meeting at the school house next Tuesday evening. Mrs. F. C. Mueller, president, is arranging the program. Routine business matters are to be transacted at the business meeting.

## PEABODY PREACHES 3RD LENTEN SERIES SERMON

The third of a series of lenten lectures will be given at the Congregational church beginning at 7:30 Thursday evening. Dr. H. E. Peabody will be the speaker. Final plans of the visitation committee in charge of arrangements for Friendship Sunday, March 18, will be discussed at a meeting after the lecture.

## FINED \$1 FOR CUTTING THRU FUNERAL CORTEGE

William Saiberlich, 924 N. Fox-st., was fined \$1 and costs by Judge Theodore Berg in municipal court Wednesday morning when he pleaded guilty of cutting through a funeral procession at the corner of Pacific and Rankin-sts Monday afternoon. Saiberlich was arrested on complaint of Louis Sorensen, 321 E. Atlantic-st.

## LAWYERS PLAN FOR STATE CONVENTION

The Outagamie-co Bar association will not be represented at the meeting of officers of county bar association at Madison Friday, according to J. P. Frank, president of the county lawyers. The meeting at Madison, according to Mr. Frank, is to make arrangements for the state bar convention next June.

## LETTER GOLF

STARTS LIKE A LION  
This month of March is when lions and lambs get a lot of publicity, but there really isn't much difference between the two—at least in letter golf. From LION to LAMB is but three. One solution is on page 11.

L	I	O	N
L	A	M	B

**THE RULES**  
1—The idea of letter golf is to change one word to another and do it in par, a given number of strokes. Thus to change Cow to Hen, in three strokes, COW, HOW, HEW, HEN.  
2—You can change only one letter of common usage, for each jump. Strange words and abbreviations don't count.  
3—You must have a complete word at a time.  
4—The order of letters cannot be changed.

## Old Fashioned Fish Line No Longer Catches Trout

BY B. A. CLAFLIN  
We are constantly receiving inquiries from our readers on the proper tackle and equipment to use to be successful on the trout streams. For that reason and, particularly for the education of beginners, we are offering in this article some pointers—the results of our own many years of experience.

In days gone by a common cane pole poked through the brush allowing the worm-baited hook to "plunk" into some pool would often result in a good catch of trout. It is different now. Conditions have changed. There is no longer the heavy timber and dense along the streams and, accordingly, methods of fishing have had to change to keep pace with the new conditions. Casting is the method necessary nowadays for even the beginner. You must get your fly out where that lunker is. And, to do this, you must first have a good fly rod.

## LEATHER SHORTAGE BOOSTS SHOE PRICES

Increased Demand and Fewer  
Hides Will be Reflected in  
Prices

Because of the scarcity of leather due to the 33.3 percent decrease of hides in the country, the retail price of shoes must inevitably advance to maintain the same quality, according to an announcement made recently by A. H. Goutting, president of the National Shoe Retailers association, to J. B. Langenberg, secretary of Wisconsin Shoe Retailers association.

"One year ago there was a visible stock of 12,000,000 hides in the United States; today the visible stock has decreased to 3,000,000," said Mr. Goutting.

"Demand is increasing proportionately with the increasing population here in America, but further than this, the demand is also increasing in Europe where, in the poorer countries, wooden shoes and shoes of straw, particularly in tropical districts, are being increasingly abandoned in favor of leather footwear. "More than there is an increasing demand in the same ratio. All those trades that employ leather as raw material for the manufacture of such things as belts, bags, sport coats, sport hats, and many articles of wearing apparel as well as for industrial uses," he said.

## MAN SLEEPING IN HALL CHARGED WITH VAGRANCY

Joseph Summers, 745 W. Lawrence-st., was arrested about 2:30 Wednesday morning by Sergeant John Duval on a charge of vagrancy. Sergeant Duval found Summers sleeping in a hallway on the third story of the Woolworth building on E. College-ave. He is to be taken before Judge Theodore Berg in municipal court Wednesday afternoon. Summers was arrested at Neenah last fall after he broke into a cottage and started a fire. He served 40 days in the workhouse for that offense.

## MEET TONIGHT TO PICK PLAYGROUND DIRECTOR

A director for Appleton summer playgrounds will be chosen at the meeting of the playground committee of the Civic Council with Mayor A. C. Rule Wednesday evening at the city hall. Eight applications for the position have been filed with the committee. Members of the committee are Harry Sylvester, chairman, Adolph Guyer, Mrs. D. P. Steinberg and Miss Agnes Vanneman.

After that, the chief requisite is a good reel.

We have used all kinds and unqualifiedly say that there is just one "best" reel for trout fishing, and that is an automatic. But watch your step when you get one. We have tried out all the leading makes and have found just one that has met all our requirements.

Of course you will provide yourself with a good line—we prefer the tapered, but a level line, costing less money will do the work. Don't make the mistake of trying to cast a fly with anything but an enameled line. It can't be done.

Be careful in getting leaders, too. For wet fly fishing use those of six and seven feet length at least. For dry flies nine foot tapered leaders are better. We use the three-tinted tapered.

Use eyed flies. Those with attached smells are unsatisfactory. The "guts" get brittle and break at the wrong time. A dozen standard patterns will usually prove all you will need, at least until you get farther advanced in the game. For early season provide yourself with some Willows, March Browns, Stones and a couple of hackles. Later in July, the Coachman, Professor, Cabill and Queen of the Waters will fit in; and for August, the Silver Doctor, Montreal, Black Gnat and the Duns will be effective. There is no hard and fast rule, however. You will learn that as you go along. If you don't get the right equipment, though, you will not be successful as a fly fisherman—you will be in the class of "plunkers" who claim they can take more trout on a worm than can be taken on a fly, and that statement comes from lack of knowledge of the game, and, more so, lack of the proper equipment.

## WILSON PUPILS SING DIFFICULT CANTATA

Junior Students Present  
"Wreck of the Hesperus" in  
School Auditorium

"The Wreck of the Hesperus," a cantata by Anderson, will be presented by the students of Wilson junior high school Thursday evening in the school auditorium under the direction of Earl L. Baker, head of public school music methods department of Lawrence Conservatory of Music.

Miss Marjorie Parkinson, David Scouler and Henry Harkel, students at the conservatory, will be the soloists. Miss Irene Midwell and Miss Mildred Evans will be the accompanists. This cantata has long been a popular one with senior high school students, but has been regarded as too difficult for junior high school production. This type of music has been successfully produced by junior high school choruses in some of the larger cities of the country, but Appleton is the first Wisconsin city to stage a cantata of this difficulty in a junior high school.

Many music supervisors and school superintendents of the state are interested and are expected to attend the cantata.

## DARROW?

Efforts are being made to enlist Clarence Darrow, famous criminal lawyer of Chicago, in the defense of 15-year-old Andy Dyken of St. Clairsville, O., when the boy goes on trial March 12 for the slaying of his mother. A group of Pittsburgh women, opposed to capital punishment, are trying to get Darrow to take the case.

## SINGERS INTRODUCE NEW STAGE STYLE

Group to Appear Here Friday  
Have Different Mode of Be-  
havior on Platform

The English Singers of London, who will give one of their novel programs of old century gems at 8:20 Friday night at Lawrence Memorial chapel as a number of the Community Artist series, have inaugurated a new style of order and behavior on the concert platform.

They introduce a fresh informality that is as unusual as it is delightful. Seated about a table with the music before them, at which they scarcely glance, they sing with ease and joy indicating an authority which is magnificently reflected in the feelings of the audience.

The English singers make a double appeal—aural and visual. They satisfy the artistic sense and unleash such a continual stream of unexpected delights that all are held spell-bound during the entire program, which is made up of motets, madrigals, folk songs, ballets, and canzonets from the Golden Age of Elizabethan poetry and music.

This rich collection of 500 separate items, lately made available through researches of Dr. Edmund Fellowes, chaplain of Windsor college, the world's greatest authority on madrigals, is now for the first time presented in public performance.

## BARN, GARAGES BURN WITH \$4,000 LOSS

Two Mules Suffocated When  
Fire Destroys S. C. Shannon  
Company Property

Damage estimated at from \$4,000 to \$5,000 was caused by a fire which broke out in the S. C. Shannon company garages and barn in the rear of the company offices, 527 N. Morrison-st., about 2:15 Tuesday afternoon. Two Jenny-mules, the finest pair of drivers in the state, according to H. J. Ingold, manager of the company, were suffocated. They were housed in the barn and were dead before the fire department arrived. It is not known how the fire started.

The fire started in the barn, about 20 feet long and 15 feet wide. The fire department kept the blaze from spreading to three other buildings, used as garages adjoining the barn.

## COMMITTEE COOPERATES WITH FORESTRY MEETING

Madison—(P)—The legislative interim committee on forestry and public lands is to meet in the Hotel Pfister Milwaukee on the morning of March 28, its secretary announced Wednesday.

The meeting will be in connection with that of the Wisconsin Forestry Conference being held at that time. The committee consists of Senators George W. Blanchard, Edgerton, chairman, and Otto Mueller, Wausau, and Assemblymen Alvin C. Reis, Madison, John Fronck, Antigo, and R. C. Trembath, Hurley.

## POSTPONE ACTION ON MANDAMUS ACTION

Madison—(P)—Further arguments before the supreme court in a friendly mandamus action by John W. Reynolds, attorney general, against Solomon Levitan, state treasurer, have been postponed until the April calendar of the court.

The petition asks the court to issue a writ of mandamus calling on the state treasurer to turn over securities amounting to more than \$700,000 to the reorganizers of the First Wisconsin Land and Mortgage Association of Eau Claire, and the Bankers' Joint Stock Land Bank of Milwaukee.

These securities represent funds invested from the state teachers retirement fund in the two companies which are now in process of reorganization. The reorganizers wish to obtain the securities so they may have voting power in reshaping the affairs of the companies.

The treasurer has hesitated to turn over the securities, and the friendly suit is to establish the legality of such action. Petitioners are trustees of the teachers retirement fund.

Amount invested with the Eau Claire concern by the retirement board is \$250,000, and with the Milwaukee bank, \$455,000.

**DRAINAGE PROJECTS  
SHOW BIG DECREASE**

**Dancy District Farmers Re-  
fuse to Pay Additional Tax  
for Work**

Madison—(P)—Since 1919, when the college of agriculture was given controlling authority over drainage organization on the state, few such projects have been carried out, according to E. R. Jones, state drainage engineer.

If the 60 drainage enterprises completed in that eight-year period were consolidated into one drainage district, he says, its combined area would be less than that of the Little Yellow drainage district of 60,000 acres in Juneau county, which was organized in 1901 by promoters.

By 1920, he says, nearly half the bonded indebtedness in most of the districts had been paid. "The average cost of the drainage, including the supplemental work, was about \$7 an acre. The general tax was about 30 cents an acre a year. The drainage tax each year was one-twentieth of the principal, plus interest, or a total of about 75 cents an acre a year at first, decreasing with the interest.

"The strange thing," Mr. Jones says "is that the second half of the drainage assessments are harder to pay than the first. In 1920, the delinquency on large, unoccupied tracts covering over half of the area, became general. These lands, over 200,000 acres in extent, are again subject to tax deed with no takers, because half of the drainage tax is still unpaid.

"The resident farmers paid their taxes up to 1927, when a supreme court decision in the Dancy district frightened the farmers in all districts. The decision holds that to make up the deficit caused by delinquency of other lands in the district, the lands that have paid their drainage taxes are liable for an additional assessment up to the amount of benefits found by the court.

"As yet, he says, "the bond holders have not attempted to collect their principal or interest in this way except in the Dancy district, and there the effort was fruitless because the resident land owners simply refused to pay the additional tax."

Mr. Jones points out that the law passed in 1919 contained a phrase, corrected in 1923, which in effect, holds the county liable for delinquent drainage taxes for those four years. This, he says, would force the county to take deed to those lands, and Juneau county is unwilling to do so because it would entail future assessments if the county became owner of the land.

**WRECK OLD MIDDLE DAM  
WITH DYNAMITE BLASTS**

The old middle dam will be blown up when the time comes to wreck it, according to engineers representing manufacturing companies which have an interest in the water power rights at that point. Just when the wrecking operation will be started is not known and depends upon when the new dam, which was just constructed at a cost of \$1,000,000, is considered completed.

**No Fun Doing "Time" In  
The Outagamie-co Jail**

It may be a real "vacation" to be confined in some county jail but men sentenced to Outagamie-co jail do not have vacations because as soon as jobs are available they are put to work and made to earn their own board, according to Sheriff Otto Zuehlke.

Jobs are secured for the prisoners whenever possible, and they are allowed to go to work in the morning but must return to the jail at night. Of the money they earn 90 cents per day is taken out to pay for their meals at the jail and the balance is given to the families of the married men. If they are single, the money is placed in a savings account by the sheriff and when the prisoner is released, he has a "nest egg" with which to start life over.

Sheriff Zuehlke said he had one man in jail who owed so many bills he credit was practically ruined. He secured a job for the man and many of the bills were paid and when the prisoner was released he had a bank account of more than \$350.

This economical method used by Sheriff Zuehlke saved the county thousands of dollars last year. The men are placed on their honor to go to work and return at night and Sheriff Zuehlke said attempts to escape are very few and far between.

At present there are ten men in the county jail on various charges. Some are serving short sentence but most are awaiting trial on charges of larceny, non support or statutory offenses.

As work is very scarce at present, the men have the entire day to themselves but as soon as work is available they will be given jobs and must pay board and they must also pay for board for the weeks they spent in jail when they were not working.

The rising bell sounds at 6 o'clock each morning and the men have a full hour before breakfast to wash, shave and exercise. When they are not working, they are allowed to leave their cells during the day and congregate in the large corridors. Here there are magazines, and books and several bibles. The men are allowed to play cards and smoke.

If they have money they can purchase tobacco or food. They also may receive gifts of books or magazines, tobacco or foods.

Breakfast usually consists of a cereal, coffee, bread and butter and prunes.

For dinner the men get meat, usually roast or stew, potatoes and gravy, a side dish of some vegetable, and coffee and bread and butter. On Sunday they receive in addition, a dessert, either pie, cake, pudding or fruit.

The evening meal consists of hash, cold meat or probably cheese, bread and butter and tea and dessert. The men are allowed to remain in the corridors until 9 o'clock when they must return to their cells and the lights are extinguished.

On Sundays the Salvation Army stages a religious service and other creeds are welcome to hold services also, according to Sheriff Zuehlke.

My jail is one of the cleanest in the state and it is open for inspection at all times," said Sheriff Zuehlke. He proudly said, "you can eat off the floor."

All of the ten men in jail are Americans. Two of them are real Americans, as they are Indians. There are no foreigners. The sheriff said he has not had a negro in jail since he took office.

**SELECT JUDGES FOR  
SPELLING CONTEST**

**Will Hold Meeting Soon to  
Decide on List of Words for  
County "Bee"**

W. P. Hagman, principal of the Outagamie Rural Normal school, Kaukauna, Frank B. Younger, principal of McKinley school, Appleton, and a representative of the Appleton Post-Crescent will be the judges in charge of the Outagamie-co spelling bee to be held at the courthouse on March 24.

The names of the judges were announced Tuesday by A. G. Meating, county superintendent of schools. The judges are to meet within the next few days to choose the list of words which the school champions will be asked to spell and to make other arrangements for the contest.

The contest probably will be in two sections. An oral contest will be staged first and the winner will receive a silver loving cup donated by the Post-Crescent and the right to enter the district spelling contest at Oshkosh on April 14. If the county winner should win the Oshkosh contest, he will be entered in the state contest sponsored by a Milwaukee newspaper.

After the oral contest a written test will be held to determine what rural school student will represent the county at the state spelling bee at the state fair at Milwaukee next fall. The winner of the oral contest will be eligible to take part in written test also, making it possible for one Outagamie-co boy or girl to win all three prizes.

**Then Doctor Told Her Quick-  
est Way to Get Relief—  
Cold Soon Disappeared**

By taking the timely advice of her doctor, Miss Margaret Miller, like numbers of Appleton people, has found the quickest and surest home treatment to end a cough or deep seated chest cold.

Miss Miller had neglected her cold several days, thinking it would "cure itself." But instead, it started spreading down towards her lungs, causing her to cough so hard in a movie the other night that people stared at her. The day following she began to feel "feverish," feared pneumonia and called her doctor for advice.

Relief began inside of an hour when the doctor gave her double doses of Ayer's Cherry Pectoral—a concentrated mixture of wild cherry, terpinhydrate and other ingredients which have relieved even the most extreme hospital cases. She felt the comforting, healing warmth from her throat deep down into her chest. By night

the "feverish" feeling had left and she was able to breathe freely and sleep without coughing. The next day she awoke to find that practically all traces of the cold were gone, and in a day or so, the doctor reports she was as well as ever.

Note: See other cases reported daily—all certified to this paper by the attending physician.

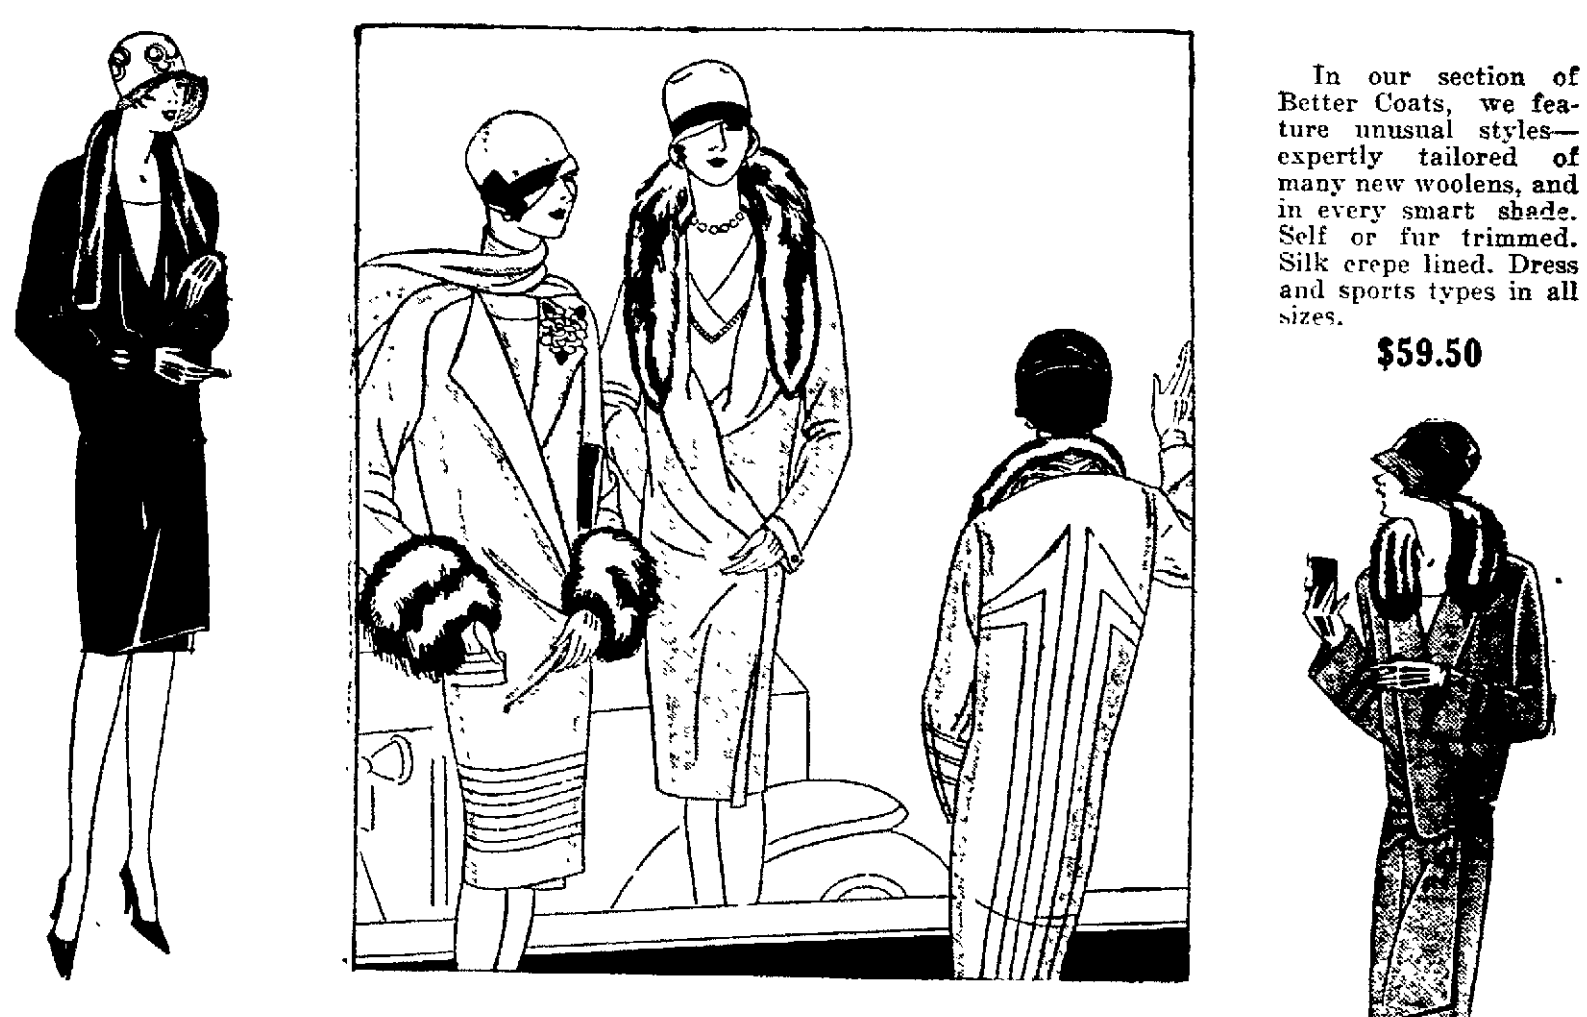

Doctors find that this hospital medicine does far more than stop coughing instantly. It penetrates and heals inflamed linings of the breathing passages. Absorbed by the system it quickly reduces phlegm, helps allay that "feverish" grippy feeling and drives out the cold from the nose passages, throat and chest.

Just a few pleasant spoonfuls of Cherry Pectoral now and you'll feel like a different person tomorrow. Endorsed by Schlitz and all druggists. Sixty times as much in \$1.00 hospital size.

MENASHA EVENING SCHOOL WORK FOR SEASON IS CLOSED

Perfect Attendance in Many Classes Outstanding Feature of Session

Menasha — The Menasha evening school work, which closes Wednesday evening for the present school year, has been one of the most successful sessions in years. Evening school has won the respect of the type of individual who can profit most by it. More classes have had 100 percent attendance and more have had close to 100 percent attendance than in former years.

The records show that there was a total enrollment of 255 students in the classes for the following work: Arts and crafts, cabinet making, clothing, cooking, commercial subjects, general academic subjects, public speaking, citizenship, machine shop, foremanship training and paper making.

The unit type of work has been the type of work which has worked out very efficiently. The evening school will reopen early in October and will run for two terms, ten weeks before and ten weeks after Christmas, and two nights each week. Unit home-making courses will be added next year, including home-nursing, infant care and invalid cookery, provided there is a demand for this type of work.

7 MORE BIRTHS THAN DEATHS IN FEBRUARY

Menasha—The report of Dr. W. P. McGrath, health officer, for the month of February shows 18 births, 11 deaths and no marriages. The only contagious disease in Menasha at present is scarlet fever and only three homes are quarantined.

RADIO CLUB VOTES TO BUY TROUBLE DETECTOR

Menasha—At a meeting of Menasha Radio club Tuesday evening at the city hall it was decided to purchase a machine for detecting electrical trouble and give it a thorough test. If not satisfactory an expert of the federal radio commission of the Chicago district will be called in.

The meeting was the first the Radio club has held for some time and was attended by about 30 members. Frank Lanzar, president, presided and John Stanik acted as secretary in the absence of George DeWolf. Several new members were taken in and several applications were received.

CHARTERS PLANE FOR OPENING BALL GAME

Menasha—Alderman A. W. Borenz has chartered an airplane to carry him to the first White Sox baseball game to be played in Chicago next month and will take a party of friends with him. Their plan is to leave Menasha in the morning and make a stop at Milwaukee on the way down and return home after the game. Their running time will be less than two hours.

WOMAN SENT TO JAIL ON VAGRANCY CHARGE

Menasha — Lucille Hartl of Menasha was arraigned in municipal court at Oshkosh Monday on a charge of vagrancy. She pleaded not guilty and her case was set for trial at 2 o'clock Friday afternoon, March 16. She told the judge she was 20 years old and had been working at Oshkosh and living at the home of a sister. Her bond was fixed at \$50 which she was unable to furnish and she was committed to the county jail.

NEENAH BOWLING TEAM ENTERED IN TOURNEY

Neenah—The Bergstrom Paper company bowling team, composed of D. W. Bergstrom, Jr., James Fritzen, Walter Pierce, Joseph Muench, Arthur Draheim and Clarence Krull, has been entered in the national tournament which will be held April 1 and 2 at Kansas City.

Nine teams will go to Green Bay April 14 to roll in the state American Legion tournament.

BRIGADE GROUPS PLAN COMPETITIVE STUNTS

Neenah—Competitive stunts will be conducted on the evenings of March 20 and 21 by the two Boy Brigade groups at First Presbyterian church. The same five incidents will be presented by each of the two sections of the company, one section on Tuesday evening and the other on Wednesday evening. Each evening's program will close with a farcical act presented by the Keating and Shattuck groups. The public will be welcome both evenings.

COACH CHOOSES TEAM FOR CAGE TOURNAMENT

Neenah—Willis Haase, captain John Schneller, Elmer Radtke, Mitchell Johnson, Gordon Ehlers, coach Ole Jorgenson's regular five and Herbert Jorgenson, George Pratt and Karl Gaertner, letter men and subs, have been selected by the coach to play in the Neenah high school team in the district basketball tournament which will start Thursday afternoon at S. A. Cook armory. Neenah will play Ripon at 4:15 on the afternoon of the opening day.

It was no easy task for Coach Jorgenson to select his eighth man for the team as there were others in his squad who are good men but after much deliberation Karl Gaertner was selected owing to the fact that he had been in the game for the last two years and had won his letter both years. The team held its last practice Tuesday evening and will rest until time of entering its first contest.

BASKETBALL COACHES TO DISCUSS TOURNEY

Neenah—A meeting of coaches whose teams are to take part in the district basketball tournament which opens Thursday afternoon at S. A. Cook armory, has been called for Thursday morning. Several questions as to officials and tournament rules are to be discussed before the playing of the first game.

SEEKS PERMISSION TO BOOST WATER RATES

Neenah—An increase in city water rates is to be sought through application to the state railway commission, but the price to be charged has not been determined. The water works commission has been working on the application for some time and should it be acted upon by the commission and the request granted, it is expected that bills for water will be higher at the July collection. The increase in rates will be used for securing an adequate compensation for the investment at the plant, mains and equipment and to provide sufficient funds to furnish extra service extensions.

HOLD PEP MEETING BEFORE CAGE MEET

Neenah—The afternoon session at high school will be closed at 2:45 Thursday in order to allow all pupils to witness the district tournament basketball game played at 4:15 by Neenah and Ripon teams. A pep meeting with short talks and yell rehearsals will be held during the morning to create enthusiasm among the pupils for the tournament, in which their team is playing for a possible championship to be followed by a trip to the state tournament at Madison the last of the month. Season tickets have been placed on sale at Leffingwell and Barnett drug stores, and student season tickets are for sale at the high school office.

HIGH SCHOOL ORCHESTRA GIVES SECOND CONCERT

Neenah—The high school orchestra, under leadership of Melvin Schneider of Appleton, gave its second concert Tuesday evening following the regular feature film at Neenah theatre. The orchestra is endeavoring to raise funds with which to purchase new instruments and music. Several musicians from Lawrence college assisted the orchestra.

KILL NICARAGUAN ELECTION MEASURE

Proposal to Have American Supervision in Voting Defeated

Managua, Nicaragua—(AP)—Uncertainty regarding the next step prevailed in Nicaragua Wednesday because of the defeat by the house of the McCoy bill to authorize American supervision of the presidential election next October.

After the defeat, Brigadier General Frank C. McCoy, who was named to supervise the election, said he would consult with President Diaz as to the next step in carrying out the Stimson agreement. The Stimson agreement provided that the Liberals in the recent revolt against the conservative government should lay down their arms and that the

## PROVIDE 6 COURSES FOR SUNDAY SCHOOL INSTRUCTIONS HERE

Expect Nearly 300 Workers  
from Neighboring Cities and  
Towns

Six courses of instruction for members of the Fox river valley training school for Sunday school workers, which will give them a basic training in their work and enable them to accomplish more with their charges, will be taught during the school period March 19 to 23 at the Baptist church here. Nearly 300 workers from Appleton, Neenah-Menasha and other cities are expected to enroll for the courses.

Prof. J. H. Griffiths of the psychology department of Lawrence college will have charge of a course in Study of the Pupil. This course will deal with educational psychology during all periods of life. It includes a discussion of original nature and the process by which desirable changes are produced. Individual differences, environment, native tendencies and habits with their relation to the growth and development of Christian personality also will be discussed. The course on the New Testament will be a study of conditions under which the several books were written, their message and their effect upon the religious life of the time. It also will deal with the contributions of Jesus to religious thought and the influence of His personality on the gospel, the early development of the apostolic church and the values of new testament materials for religious education.

The Teaching Work of the Church will give students training in the religious educational functions of the church, the essential of complete program and how it can be carried out in all ages through the home, the church school and the community. The course in Religious Education in the Family will lay special emphasis on the problems involved in the religious training of children in the home and family worship and other forms of religious activities which nurture religion in the home.

Capacities and normal development of children in years of late childhood with special attention to the elements of religious nurture will be taken up in the course of study of Later Childhood. The course also will go into a further study of psychological factors and the development of children. Story Telling in Religious Education will reveal the aims and uses of stories, their structure, the technique of telling them, selection of materials and connecting them with life experiences.

## MAKING CHANGES FOR PRESENT ZONING LAW

Two ordinances changing the present zoning law are being prepared by the city attorney and probably will be presented to the council at its regular meeting, March 21. One of the ordinances will place lot 11, block 96 Third ward in the business district and lot 5, block 3, Eib's First ward addition, in the heavy manufacturing district. The other ordinance will place lot 7, block 11, Kernan's addition, Fourth ward, in the local business district.

## Bonini Takes Air Ride But It Was Only A Dream

There are, of course, all kinds of dreams, some good, some bad and others just so-so.

Most everyone has dreams and, in fact, they are so common that it was only by chance that a recent dream of Louis Bonini became public.

Mr. Bonini, you know, conducts a meat-market on the avenue and, above many other things, does appreciate reading his newspaper—which is probably the reason for the dream.

Well, to get to Mr. Bonini and his dream, he was up late the other night

reading the newspaper and read about the airport here and then went to sleep. No sooner had old man Morpheus overtaken him before he began to dream—and how.

For no good reason, as far as he has been able to explain, Milo G. Clark, Valley Boy Scout executive, was piloting a plane in which Mr. Bonini was soaring about the sky, trying, he believes, to dodge stars and clouds—and things.

Now we have the two of them out sky-riding. Mr. Clark busy at the controls and Mr. Bonini enjoying the other, of which there was a big plenty. And right here is where the dream differs from the ordinary dream—they did not fall—they did not threaten to fall—they did not even so much as lose Mother Earth, but, instead, came to a safe and graceful landing, just where does not enter into the details of the dream.

And now we have Mr. Clark and Mr. Bonini safe on the ground again and a third personage enters the dream. The newcomer was none other than "Jim" Wood, and again, just why Mr. Wood was chosen for this part is but a dim mystery.

That was a dandy ride, I wasn't scared in the least and we were perfectly safe," Mr. Bonini confided to Mr. Wood.

"Yes, you're safe but look at the airship," said the joy-killing Mr. Wood.

And behold! When Mr. Bonini turned around, the airship was a mass of wreckage and lay on the ground in pieces—not altogether unlike the famous one-hoss-shay.

## FOX RIVER VALLEY FURNITURE MEN MEET

Twenty five members of the Fox River Valley Retail Furniture dealers association attended the regular monthly meeting of the association Monday night at the Northland hotel, Green Bay. Dinner at 6:45 was followed by talks by O. Kummerow, Oshkosh, Mr. Kohl of the H. C. Prange company, Sheboygan, and Mr. West of the Kitzinger Furniture company of New York. The next meeting of the association will be held in the association on April 9. A. W. Tretton, H. G. Kittner of the Brettschneider Furniture company, George E. Johnson and Earl Wichman of the Wichman Furniture company and R. A. Hatch attended the meeting.

## If your Pavement is Bad, re-surface it with BRICK

Perhaps your street is in bad condition and you are considering having it re-built.

Why not get full salvage value for your old street pavement by using it as a base for a fine brick surface.

Extensive tests conducted by the U. S. Government prove that various materials make excellent bases for brick surfaces. Your City Engineer is familiar with these Government findings. Ask him about brick surfacing old pavement.

Paving brick, being vitrified, makes the finest known wearing surface for any street. This surface is tough—nothing on wheels can damage it. It has a resilient sand cushion to take up traffic shocks. It is totally proof against destructive weather conditions—thus actual insurance of lowest paving cost.

Brick surfaced streets look attractive. They are safe and smooth riding and always open to traffic.

"The A. B. C. of Good Paving," a taxpayer's manual, tells in words and pictures how engineers today build wear-wearing, low cost, brick surfaced roads and streets. Address your request to National Paving Brick Manufacturers Association, 332 South Michigan Avenue, Chicago.

## SPARTA CANDIDATE HAS CONSOLIDATION PLANS

Sparta—(P)—Otis F. George, president of the Sparta community commission, and candidate for mayor, has advocated consolidation of the county and city government.

Modern methods of travel and communication have so annihilated distance that present town and city geographical limitations are obsolete in the opinion of Mr. George who is a local druggist.

"Present-day conditions demand a change and geographical boundary lines established a half century ago should be obliterated," said Mr. George at a meeting of several hundred farm and city people in the high school gymnasium here. "It is time that we show our community spirit in a practical manner, not only by being friendly to residents of surrounding townships but by actually counting them as a part of our community and by inviting them in to share in all phases of our community life and government."

## COUNTY TREASURER PAYS STATE TAXES OF \$92,051

Outagamie-co's share of the state taxes, \$92,051.92, has been mailed to Solomon Levitan state treasurer, by Miss Marie Ziegenhagen, county treasurer. Town, village and city treasurers had paid their share of the taxes to Miss Ziegenhagen Tuesday morning. The last day for local treasurers to pay these taxes was Tuesday, March 6, and there were several delinquents. The county's share of the taxes was divided as follows, state tax, \$52,268.42, school special district school loans, \$18,608.09, special charges for charitable institutions, \$21,155.42.

## "THE HUMILIATING STIGMA"

It is refreshing to see the reaction to Senator Borah's demand on the Republican party "to clear itself of the humiliating stigma" placed upon it by acceptance of Sinclair's campaign contribution by a collection of funds far and wide to repay the money. The Republican party should promptly follow that suggestion. To do so would not only be a general cleansing of the political air but the setting of a precedent for all time to come.

Contributions of the Sinclair type are tainted. Money becomes tainted only when used for foul or tainted purposes. Giving money to a political party because of faith in its principles or a desire to assume some part in its policies or purposes is not only entirely proper but highly commendable. Advancing funds to assist in defraying the necessary expenses of the candidacy of a friend because of a conviction of his ability and a desire to assist in his ambition is manly and praiseworthy. But Sinclair was actuated by no such motives. His entire purpose was to use his money to pollute the public service. He treated public servants as so much merchandise to be bought at market prices. The natural result of his conduct is to impair the greatest source of happiness and contentment the human race has ever known, the government of the United States. As Senator Walsh succeeds in uncovering more details of Sinclair's sinister purposes the magnitude of the crime assumes greater proportions.

Mr. Sinclair and those who have been associated with him in these transactions must be made to feel, not merely that they were unfortunate in getting caught but, in the language of the President, "the deep scorn and indignation" of the American people. Acts of the Sinclair kind are of a leprous nature and those who indulge in them, as well as those who may think of planning them for the future, must be taught the monstrosity of their conduct. In no more practical way can such situations be treated.

The senate investigation is not only disclosing the weaknesses of those who succumbed to selfish temptations but the honor too of those who were invited to participate in shady deals and resolutely refused. Among the latter is Secretary of the Treasury Mellon, a man much maligned because of his wealth but who has given to the nation during the last eight years services of a high order and almost indispensable character.

The investigation shows further that the people must reform their ideas concerning political campaign contributions. Like children following the Pied Piper the public has followed well intended but quite incapable leaders, those able of forming words into honeyed sentences but with little or no idea of the practicality of their plans, men who look behind but never ahead. They have preached to the people that campaign contributions must be limited instead of submitting a plan for examining the source and the purpose of such contributions. It would be a wise plan to limit the amount that any one individual might contribute to a figure that would strike the people as reasonable and prohibit entirely corporate gifts. But were each political party to spend even ten millions in a national election for halls, speakers, printing, distribution and educational purposes the money would in fact be well and properly spent. Arousing interest in so important a thing as a national election is entirely legitimate. Using money to finance the education of the masses to the merits of political policies has no wrongful element.

The investigation coming on the eve of an election comes at the right time. Out of it should come too a sensible and workable system for future guidance.

## BOSTON CENSORSHIP

A long time ago Boston established its right of censorship. It will be remembered that the article censored at the time was tea and that the incensed Bostonians gathered up the offending tea and threw it into Boston harbor. True, there was considerable aftermath, but Boston finally emerged secure in its rights of censorship in tea and other things.

Books, for instance. The furore over the censorship of books in Boston, unofficial censorship, it will be noted, just as was the case in respect to tea, has led to the introduction of three bills in the Massachusetts legislature in an effort to straighten out what is at best a peculiar situation. As matters now stand, almost any one can bring about the suppression of a book by the simple method of addressing an anonymous warning to book dealers that they had better not sell a certain book under pain of being prosecuted and fined and possibly sent to jail. This gets results because, with no more ado than this, dealers have been arrested and fined and, it is said, jailed, and the possible term of imprisonment is two years. Dealers do not know, of course, that they will be prosecuted if they do not heed the warning, nor do they know that they will be convicted if prosecuted, but in any event it is the dealer and not the writer against whom the law is directed, and they do know that they are taking chances if they ignore the warning.

Boston book censorship is no new thing; the Watch and Ward society was formed about fifty years ago to safeguard the morals of that city, but the conditions that have made possible the success of the present unofficial censorship have been utilized to this purpose only the past year. There is no way to tell how many books have thus been banned, but the Author's League Bulletin has compiled a list of more than fifty books which it says were included in "the last wholesale gesture of terrorization."

Many of these books are by the most noted writers of this country. England and continental Europe. Should they not have the right and the opportunity to protest? The character of the censorship renders this impossible and is unworthy an American community.

## THE LEAGUE CAPITAL

Back in grammar school days Geneva was just a city in Switzerland, located on Lake Geneva. To an older person the name has much wider significance. The city of Geneva has long been an intellectual center. In proportion to its size it has had an unusually large number of famous people as residents. The Encyclopedia Britannica assembles an imposing array of great names that shed their luster on this small city.

In recent years it has become a peace center. Since the establishment of the League of Nations the name "Geneva" has come to hold a suggestion of peace, of intelligent consideration of the world's quarrels, of opportunity for lesser nations to speak out freely in the presence of the powerful nations. Geneva is a symbol. That is why, in spite of the complaints of the League's great staff of office workers that there was no amusement to be had in Geneva except its scenery, and their pleas for removal to a gay capital, it has been decided to keep League headquarters there. There was much discussion for and against a change. The final decision favored Geneva.

The League will build its new palace there. American representatives, public and private, will continue going there to cooperate with League activities for world improvement along many lines. The accumulated goodwill and hope that the work of the League has created will continue to be felt in the very atmosphere of the place.

**SORRY, GRANDMA, BUT COLIC IS NO MORE**  
Before the before opening bell I desire to say that I have been training hard for 15 years for this bout, and I am in dead earnest about it and warn grandma that I shall show her no quarter.

It is comparatively safe for one of my elusive type to assert boldly—that's the way I make my assertions these days—that there is no such thing as a mastodon, a dodo bird, a good 5 cent cigar or a sure cure for what have you. But when a fellow grows bold for lack of an enemy, like poor old Napoleon on the way to Moscow, and begins to relate contemporary myths to the same category, his troubles begin. I have found it so easy to dispose of "colic," "rheumatism," "biliousness," "acute indigestion," "nervous breakdown," "neurasthenia," "overwork" and "catarrh," for nearly every time I consign one of these hypothetical maladies to the museum some dodo bird purports to have it still. Only the other day some paleontologists solemnly announced that they had discovered a dinosaur with the rheumatism. While I strongly suspect they are in league with the regime of the American Medical Association, I must await the report of my investigators about that. Meanwhile, let 'em bring on their limping dinosaur and we'll see what really ails him.

However, to return to our knitting, every little while some novice mother or mischievous nurse asks for a good remedy for colic, and it requires so much space to make a suitable reply to such a question that I give it up, for we have to print the news somewhere.

For fifteen years I studied blimps. Not that I was silly or mushy about 'em—not until I had one of my own—but somehow I have always taken the greatest interest in patients or subjects who didn't call a doctor names, nor string him along, and fill up on some secret nostrum or absent treatment unbeknownst. Babies are honest, always on the square with the doctor. They tell him no fibs. They neither try to minimize nor scheme to exaggerate their sufferings, worries or problems.

Some thousands of babies having been "brought to my notice," as the executives say, and contents carefully examined, I beg to inform you that in my opinion colic never happens.

Of course, I know, before you open your mouth, that you will demand an off hand diagnosis of what really ails the baby, if it isn't colic, especially when he cries so hard, gets red in the face, draws up his legs and everything. Very well. You have had your say. Now let me talk a while. In order to answer your question I'll have to talk quite a while.

First of all, let me present here a tabulation of the actual facts in a series of cases of alleged colic in infants ranging in age from 3 weeks to 11 months. In every instance the diagnosis of "colic" was made by mother, grandmother, well meaning neighbor, experienced but uneducated nurse, or a little tin doctor. But I shall not imply that regular doctors never longer diagnose "colic" in infants. Some of 'em still find it as handy as a "common cold" when they want to mark time on a case or hedge on the diagnosis. Distracted parents like a diagnosis of "colic" as well as an ordinary sap likes to be assured his cri is just a "cold."

## QUESTIONS AND ANSWERS

We Doctors Do Our Stuff

It surely puzzles the poor layman when you doctors are so much at odds. (W. F.)

Answer—The inclosure is a clipping from some publication, telling the eager reader that the most scientific, practical and comfortable suggestion for leg steel springs is, "but probably that isn't the important part. Let's see, here's another telling the sucker how the latest improved model positively removes your snub nose overnight—or maybe a thousand nights—and equips you with a Roman nose instead, and if it fails, try and get your money back. But that isn't what W. F. refers to, I know. Here's still another item in the clipping: "After 15 years' study Dr. Volney S. Cheney, medical director of a large Chicago packing firm, declares that colds are not infectious at all."

Ah, now that's something. Is this Dr. Cheney talking about colds, or folks? If he has had 15 years' experience with folks, why he ain't seen nuthin'. I have studied what folks—and some very successful doctors—call "colds," for 25 years and I declare that most such illness are infectious and that's the only way folks catch 'em.

But before Dr. Cheney carries his studies further, I dare him to do, in less than 5,000 words, what he means by "colds."

## Pure Milk Versus Pasteurized

We have taken grade A milk for 15 years from a dairymen who handles his milk properly. But lately we have heard so much about pasteurized milk that we are wondering. We have five strong, healthy children ranging in age from 6 to 15 years, all raised on raw milk. Would pasteurized milk be better for them in any way? (Mr. and Mrs. N. M.)

Answer—I should say not. In some cities all milk, except certified milk, must be pasteurized before it is sold. Pasteurization means simply heating the milk up to 10-15 degrees F. for 20 to 30 minutes, then cooling it down, and then heating it properly done, will kill any tubercle bacilli, typhoid bacilli, diphtheria or scarlet fever or septic sore throat germs that may be in the milk. Certified milk is pure raw milk produced and marketed under strict sanitary supervision by a medical milk commission. Unquestionably the milk you call grade A milk is often as pure and clean as certified milk. Stick to it. (Copyright John F. Dille Company.)

## Gracious! What's Come Over Father Lately?

## LIBRARY ADVENTURES

By Arnold Mulder

WILBUR DANIEL STEELE CRITICIZES ST. PAUL

Steele's new novel, "Meat," is printed in the text from I Corinthians VIII:13: "Wherefore, if meat make my brother to offend, I will eat no flesh while the world standeth, lest I make my brother to offend." The title of the novel finds its origin in that passage; so does its theme.

Hardly necessary to say that Steele does not agree with St. Paul. At the very beginning of the story he makes one of his characters say, "God is sorry and I'm sorry, but the world was made for well people to live in, first of all." In other words, since meat is wholesome for we people, it is foolish to deprive them of it because it is harmful to a few. By the same token, if wine is wholesome for some people it is foolish to deprive all of it because it turns a few into beasts.

"Meat" is not obviously a propaganda novel in opposition to the eighth amendment; Wilbur Daniel Steele is too good an artist for that. But such opposition is implicit in the theme. It is this aspect of the subject that is making the book a storm center. The larger aspects of the theme will probably be forgotten while people agree or disagree with it on the score of its relation to prohibition.

The theme as a whole—not merely its implications in regard to the liquor problem—is an extremely good one. Is the law of the jungle that allows the weak to perish in their weakness, leaving room and air for the strong and the well, better for the human race in the long run than coddling and protecting the weak, perhaps at the expense of the strong?

Modern civilization follows the latter course. We protect the weak in every conceivable way; a large share of our taxes is used for that. But sociologists are not lacking who believe that the weak and defective will eventually overrun the strong and the wholesome, unless they are prevented from propagating.

In the book an average family is organized to meet the demands of the weakness of one abnormal child. Slowly but surely policy poisons the life of the family. The two well children are sacrificed to the abnormal one, deprived of all things that are wholesome for the well because they may hurt the abnormal one. Continued for twenty years, all life is poisoned for them and they are carried to the very brink of disaster. The same thing is true of the father and the mother. The whole family loses touch with the kind of normality that makes for wholesome living. And in spite of it all the weakening, for whom it is done, topples over in the first moment of excitement and breaks under his congenital weakness.

The sacrifice has been futile. Four well people have been all but sacrificed to one weakening, and nothing to show for it in the end.

Of course, another writer might take the same text and come to exactly the opposite conclusion. That in fact has been done again and again. The significant fact about the Steele novel is that it is a challenge to that sort of thing. The writer makes out a rather strong case for his thesis but he has of course manipulated the strings, just as other writers who take the opposite view manipulate their strings to suit their thesis. Take your choice.

The most serious objection I find to "Meat" is not on the score of its theme nor writer, applying the old question advocated by the author, he has a right to his opinion. It seems to me that he has tried to make his thesis take place of history. We never lose sight of the fact that he is defending a thesis, whereas in life we never think of people embodying "a" thesis.

This is due perhaps entirely to Steele's technique. He is a short story writer first, last, and all the time, not a novelist. When he attempts a novel in "Meat" he continues to be a short story writer, applying the short story technique to the novel. He cuts details to the bone—which is necessary in the short story but often fatal to the novel. We are left with the thesis sticking out of every page.

"Meat" will arouse discussion. It is not the last word on its theme. St. Paul's defenders may conceivably make an effective answer.

thermos bottles, one filled with very hot water and the other with the proper baby formula, be used. At feeding time the water in the thermos bottle should be poured off into a saucer and the milk poured into the hot thermos. The bottle can then be placed into the saucerpan of hot water. This is the only satisfactory way to heat a baby formula.

Q. Please write the figures given as the newly estimated weight of the earth. W. A. J.

A. The number given for the weight of the earth is five sextillion, nine hundred and ninety-seven quintillion tons.

Q. What animals suck water, and what ones lap it up? S. J. R.

A. Animals of the horse family, antelopes and cows, suck water. Those of the cat and dog families, such as the tiger and wolf, lap water with their tongues. Some species of bear wet their paws and lick them.

Q. When was the parachute invented, and when was it put to practical use? S. K.

A. The invention of the parachute is accredited to Sebastian Lenormand and the device was used by him in 1874 in making a descent from an upper window of a house in Lyons. The first descent from a balloon was made by Garnerin in Paris in 1797.

Q. A recent news dispatch indicated that Pauline Garon had just received citizenship papers. In what country was she born? A. G. S.

A. Miss Garon was born in Montreal, Canada.

Q. How long will a shingle roof last? N. M.

A. The life of a good shingle roof is from 15 to 40 or more years.

Q. When did Ingersoll make the statement that whiskey was the finest beverage that ever painted landscapes in the brains of men? R. L. D.

A. In a letter to his son-in-law in New York, April, 1887, at a time when he was ill with pneumonia, and when whiskey in small doses had been prescribed, he wrote: "My dear friend, I send you some of the most wonderful whiskey that ever drove a skeleton from a feast or painted landscapes in the brain of man."

Q. Where was John the Baptist born? M. T. H.

A. Dr. Henry Van Dyke, writing of a trip to the Holy Land, speaks of Ain Karim, as the village where John the Baptist was born.

Q. What deciduous trees are suitable for ornamental planting? A. W.

A. Such trees include the following: Common red oak, white oak, scarlet oak, pin oak, black oak, tulip tree, American elm, red elm, red maple, Norway maple, American linden, American plane tree, white ash, London plane tree, sugar maple, Kentucky coffee tree, tupelo, sweet gum, black walnut, and bald cypress.

Q. Tent oil usually found in pools? N. V.

A. "Pool" as used in oil field language does not mean an open hole filled with oil. Oil is contained in the formation between the sand grains or small cracks in limestone. A pool means a definite area within whose limits may be found in commercial quantities.

Q. How much does a railroad track cost per mile? E. C. M.

A. It is estimated that it costs \$9,380.43 per mile, using 75-pound rails.

Q. What term describes the shape of the earth? O. B.

A. The earth is flattened slightly at the North and South Poles. The technical term for the shape of the earth is an oblate spheroid.

Q. How long should the milk fed to a baby be kept hot in a thermos bottle? E. M. G.

A. The Division of Dairy Industry, Department of Agriculture, says that milk fed to babies should never be heated and kept in a thermos bottle. It is suggested, however, that two

## See-Sawing On Broadway

By Gilbert Swan

New York — Manhattan snapshots  
.....The monocled men, seemingly fastened to the windows of Fifth Avenue clubs.....Wonder if I'll ever get used to them?.....Except George A. Jess, the actor, for whom the monocle seems to have been invented.....And he generally wears one.

What a contrast to those growing herds of men who form the Bowery bread line!.....Perfectly groomed men in Fifth Avenue; bedraggled, hungry, haunted men of the Bowery.....Yet each class stands gaping into space, daily expressionless.....Can the man in the Fifth Avenue window be as hungry as his brother of the slum?.....Why not?.....Man hungers for things other than food.

Those poets' dinners on Monday nights.....They call it the Grub Street club, I believe.....And they gather in an arty-looking little eating place on the fringe of Greenwich Village and read their verses, hour upon hour.....Most of it pretty bad.....an idea here and there and a hint of poetry....."Moon-struck maids from Brooklyn tuning in.....With a little 'necking' going on in the corner.....In poets' corners as well as on Fifth Avenue buses or Squeamish High School steps.....And Lew Ney, self-imposed 'mayor of Greenwich Village,' acting as interlocutor.....An old duck who tries to keep the old traditions of the Village alive.....Don't ask me why.

Which reminds me of the girl they called "the mayress".....A tabloid newspaper gave her the name and the poor girl believed it.....Her real name was Schmalz, or Klein, or something like that and her father ran a tailor shop.....When she left home and came down in the Village as a model she became Aimee Cortez.....A good-looking youngster, with a nice figure.....Just another attractive girl, but with very little background or education in life.....And with clouds drifting about her head.....Her feet not very solidly on the ground.....And with the notion that the old fictions of the Village had to be lived up to.....Publicity piled up on her, but she didn't know how to capitalize it.....One of her best jobs was that of dancer in a so-so Village cafe.....And the candle went on burning at both ends.....One night she found her self alone with her thoughts.....Which threw little light on her life.....She was tired out.....Soul weary, flesh weary.....They found her dead body in a gas-filled room.....And took it back to the tenement on the East Side for burial.....Thus for the gay 'mayress of Greenwich Village' the commutator train that took her things that wear the brand of Manhattan upon them.

It's a funny world.....Not so many years ago, a cute little, red-headed girl, with freckles over the bridge of her nose, used to flit shyly from a seat in the commuter train that took her from a log cabin in Mill Valley, California, to my newspaper task in San Francisco.....She was going to high school then.....The other day I was invited to have lunch with Sally Phipps, the "baby star" that Fox Films is grooming for an important place in the screenlight.....I hadn't seen her in the pictures, for some reason or other, though a lot of critics had advised me to take a look at "The High School Hero".....Anyway, when I was ushered into the room, there sat the cute red-haired flapper of the commuter train, occupying an elaborate and expensive suite in an exclusive hotel.

considerable eagerness. "Just as I thought," he nodded his head with satisfaction. "Clear-cut, professional job by somebody who's been in the line of work before."  
 "Still, if such is the case," he said, "why did this experienced burglar first use the insufficient poker? And why did he overlook the living-room clothes-dress?"  
 "I'll find all that out, Mr. Vance, when I get my hands on him," asserted Heath, with a hard look in his eyes. "And the guy I want to have a nice, quiet little chat with is the one with the picked silk shirt and the clamorous gloves."  
 "For myself, I have no yearning whatever to hold converse with him. Somehow, I can't just picture a professional looter trying to rend a steel box with a cast-iron poker."

**THE STORY THUS FAR**  
 There were finger prints in the apartment of the murdered Margaret Odell, but the thing that baffles Vance most is the jewel case. It had been opened with a steel chisel after unsuccessfully being tried with a poker. Spotewode had gone out with the girl the night of the murder. When he left her he told Jessup to call a cab. He heard a scream from her apartment, rushed back to her door and found everything was all right. The next morning she was found strangled. Vance believes two men were in the apartment; the murderer and another who lay hidden in a clothes-closet. Investigation discloses that Cleaver is the man who has been seen with her the most.

**CHAPTER XV**  
 Markham sat up.  
 "I know Cleaver—if it's the same one."  
 "It's him all right," declared Heath. "Former Brooklyn tax commissioner, been interested in a poolroom for some time in Jersey City ever since he hangs out at the Stuyvesant Club, where he can hobnob with his old Tammany Hall cronies."  
 "That's the one," nodded Markham. "He's a kind of professional gad—known as Pop. I bet he's got a lot of Vance gazed into space."  
 "Well, well," he murmured. "So old Pop Cleaver was also entangled with our subtle and sanguine Dolores."  
 "I thought, sir," went on Heath, "that, seeing as how Cleaver is always in and out of the Stuyvesant Club, you might ask him some questions about Odell. He ought to know something."

"Glad to, Sergeant," Markham made a note on his pad. "I'll try to get in touch with him to-night. Any one else on your list?"  
 "There's a fellow named Mannix—Louis Mannix—who met Odell when she was in the 'Polies, but she chucked him over a year ago, and they haven't been seen together since. He's got another girl now. He's the head of the firm of Mannix and Levine, importers, and has one of those night-club rounders—a heavy spender. But I don't see much use of barking up that tree—his affair with Odell went cold too long ago."

"Yes," agreed Markham. "I think we can eliminate him."  
 "I say, if you keep up this elimination much longer," observed Vance, "you won't have anything left but the lady's corpse."  
 "And then, there's the man who took her out last night," pursued Heath. "Nobody seems to know his name—he must've been one of those discreet careful old boys. I thought at first he might have been Cleaver, but the descriptions don't tally. . . . And by the way, sir, here's a funny thing when he left Odell last night he took the taxi down to Stuyvesant Club, and got out there."  
 Markham nodded. "I know all about that, Sergeant. And I know who the man was, and it wasn't Cleaver."  
 Vance was chuckling.  
 "The Stuyvesant Club seems to be well in the forefront of this case," he said. "I do hope it doesn't suffer the sad fate of the Knickerbocker Athletic Club."

Heath was intent on the main issue. "Who was the man, Mr. Markham?"  
 Markham hesitated, as if pondering the advisability of taking the other into his confidence. Then he said, "I'll tell you his name, but in strict confidence. The man was Kenneth Spotewode."  
 He then recounted the story of his being called away from lunch, and of his failure to elicit any helpful suggestions from Spotewode. He also mentioned Heath's verification of the man's statements regarding his movements after meeting Judge Redfern at the club.  
 "And," added Markham, "since he obviously left the girl before she was murdered, there's no necessity to bother him. In fact, I gave him my word I'd keep him out of it for his family's sake."  
 "If you're satisfied sir, I am," Heath closed his note book and put it away. "There's just one other little thing Odell used to live on 110th Street, and Emery dug up her former landlady and learned that that fancy guy the maid told us about used to call on her regularly."

"That reminds me, Sergeant," Markham picked up the memorandum he had made during Inspector Brenner's phone call. "Here's some data the professor gave me about the forcing of his jewel case."

Heath studied the paper with con-

the right hand—the lower row those of the left.  
 "So that's the arbuter elegatium who introduced the silk shirt for full-dress wear! My word!" Vance regarded the identification card satirically. "I wish he'd start a craze for garters with dinner jackets—these New York theaters are frightfully drafty in winter."  
 Heath put the card back in the folder, and glanced over the typewritten paper that had accompanied it.  
 "He's our man, and no mistake, Mr. Markham. Listen to this," Tony (Dude) Skeel. Two years Elmira Reformatory, 1902 to 1904. One year in the Baltimore County Jail for petty larceny, 1906. Three years in San Quentin for assault and robbery, 1908 to 1911. Arrested in Chicago for house-breaking, 1911; case dismissed. Arrested and tried for burglary in Albany, 1912; no conviction. Served two years and eight months in Sing Sing for housebreaking and burglary, 1914 to 1916. He folded the paper and put it, with the card, into his breast-pocket. "Sweet little record!"

"That dopey hat you wanted?" asked the imperturbable Bellamy.  
 "I'll say!" Heath was almost jovial. Bellamy lingered expectantly, with one eye on the district attorney; and Markham, as if suddenly remembering something, took out a box of cigars and held it out.  
 "Much obliged, sir," said Bellamy, helping himself to two, and putting them into his waistcoat pocket with great care, he went out.

"I'll use your phone now, if you don't mind, Mr. Markham," said Heath.  
 He called the home-dress bureau.  
 "Look up Tony Skeel—Dude Skeel—prompt, and bring him in as soon as you find him," were his orders to Sultkin. "Get his address from the files, and take Burke and Emery with you. If he's hopped it, send out a general alarm and have him picked up—some of the boys'll have a line on him. Look him up without booking him, see. . . . And, listen, search his room for burglar tools, he probably won't have any laying around, but I

## FLOORS of ICE in Your HOME

**FLOORS.** Cold, draft-swept floors. Are there floors of ice in your home? Tots must play—mothers work. Cold or warm, drafty or not, floors must be used. You pay for floors. Are you getting it? Holland Vaporaire Heating is right in principle. Floors are warm when you get up—warm all day—warm when you go to bed. Heat is yours to command. Seconds change cold to comfort. Every room is bathed in clean, moist, dust-free, circulating warm air in properly measured volume.

**HOLLAND Vaporaire Heating** installations are made by factory-trained and supervised men after your individual heating plan is triple-checked. Comfort, fuel savings of 20% to 40%, absolute cleanliness, healthful automatic humidity, utmost convenience—all are guaranteed by an ironclad bond backed by our entire resources. Low winter prices are now in effect. As little as \$15 down puts the modern Holland Vaporaire in your home—a whole year to pay the balance. Get the facts!

## HAVE COLOR IN CHEEKS

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edward's Olive Tablets—a substitute for calomel—were prepared by Dr. Edward after 20 years of study. Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color.

To have a clear, pink, skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after-effects. They start the bowels and overcome constipation. Take nightly and note the pleasing result. Millions of boxes sold yearly. 15c, 30c, 60c. All druggists.

NEW FASHIONS A PAGE OF INTEREST TO WOMEN BEAUTY HINTS

What Has Become Of Old Time 'Home Made' Dresses?

Is dressmaking dying a natural death? The question came to Janet Brown one day last week as she recalled the annual spring sewing week at her home when she was a child. Have the ready-to-wear shops and departments taken the place of the seamstress? To answer these questions Janet went to those who sell dress goods, to the pattern counter, to the sewing machine salesman and to the dressmaker.

And instead of one story, Janet heard three. Story the first: Never before, said the buyer in one dress goods department, have women realized as fully as they do today that the way to attain quality, economy and individuality is to buy dress material, make it themselves or have a dressmaker do it. We recognize this fact and plan our department accordingly. A sewing week has been held and we have had dress made by local dressmakers using the patterns sold in the store and then we have had models made in the store. Under the influence of the field of the higher priced dresses, she does wisely to have her clothes made. Never before has there been such incentive to the home dressmaker. Patterns, while simple, are more charming than ever and dress materials have never been prettier in design, color or texture.

**SALES SHOW INCREASE**  
Story the second: It is impossible to compete with the new \$15 and \$25 dresses said the buyer of another department store. We have found that the sales in our ready-to-wear department have increased proportionately to the decrease in the dress goods. But isn't it logical, she continued, for

the dress you see on the saleslady at the next counter cost but \$15 and she could not buy the same material and have made it for that price. Materials which sell for \$4.50 a yard in our department are used in \$25 dresses, so of course mother isn't going to sew and fit and cut and baste when a dress of the material she is using can be bought for less than the price of the material in the ready-to-wear department. And this buyer and manager predicted that it would be a matter of perhaps five or six years when the dress goods department would be practically negligible. And so we come to the story the third:

**WANT BEST QUALITY**  
Yes, thoughtfully replied the lady questioned in the dress goods department, we are selling just as much dress material as ever, but the demand is for the better quality silks. There is no effort to compete with the cheaper dresses by selling cheaper silks, just as many customers have in the past two years experimented with the cheaper silks and have found them wanting. Our sales record does not show that dressmaking is falling off, by any means.

And the girls at the pattern counters find that just as many ladies turn in just as many pattern books as ever. Dressmakers are not forsaking their jobs because of a lack of employment, rather, there seems to be an indication that there is a dearth of dressmakers in the city. More sewing machines sold than ever before, report the sewing machine salesmen and so it would seem that Appleton women still can sew a fine seam and believe in doing so.

1. What should be the guiding factor in setting a table?
2. Should pickles, sauces, jellies and so on be placed on a table?
3. Are individual sauce plates used now for vegetables?

THE ANSWERS

1. Simplicity.
2. No. Pass them in glass or china dishes, with spoon or fork for serving.
3. No. Vegetables should be served on the plate with the meat.

REAL DESERT KISS IN FILM

Egypt has its own desert, shiek and kiss film, an Egyptian production, company having recently released "A Kiss in the Desert." It was made in the desert and as Egyptians played the principal parts the kiss is said to be intensely real. The production is advertised as "a powerful drama of adventure in seven parts." It was produced in Cairo with much success.

and tan tweed suit with three quarter coat. The skirt had ample fullness, by way of box pleats. And the coat gained grace by having a slightly nipped-in waistline, just a suggestion of a molded silhouette.

The coat was collarless and cuffless, being finished with one-inch bandings. And the angora sweater blouse, in a lighter shade, had the same banding around its pointed neckline.

She wore a double pointed fox neck-piece. And her hat had a smart modernistic pin in it—of gold and enamel.

Mrs. Martin Scott looked exceedingly trim in a new black tailored suit of soft woolen. It had a tuxedo front and one day she wore the smartest of smart little white silk pique blouses. This new silk pique has the edge on almost all shirtings for style, it seems to me.

Here is the secret of a better flavor in your cakes!

You've met those beautiful cakes with the flat, unsatisfactory taste. You don't want that—you want a cake that tastes as good as it looks. The secret is in the flour—frequently these disappointing cakes are the result of flour made from the wrong type of wheat. Don't take chances—insist on Pillsbury's Best Flour. It will give you that delicious, delicate, unmistakable flavor that marks your truly perfect cake, because it is made only from wheat carefully selected for its full flavor. You can depend on Pillsbury's Best Flour for better flavor and more certain success with everything you bake—cakes, pies, biscuits, cookies, bread. Accept no other flour!

PERSONALITY AS DEFINED BY OLIVE ROBERTS BARTON

**BY OLIVE ROBERTS BARTON**  
A BOY said to his father, "Dad, what is personality?"

His father looked thoughtful as people do who have never been called on before to give a definition of something they have sensed rather than actually known.

"Personality! Why, let me see, Son. It means interesting. Any person who is interesting has personality." "Has Mr. Stokes got personality?" "He's always telling stories!"

"No-o! I shouldn't say that. No, he hasn't personality." Suddenly there appeared to his mind's eye the little lame shoemaker at the corner, a silent man, full of experience of life.

"Do you remember when we crossed the bridge over the tracks yesterday and watched the train out of sight?"

"Well, a train's an interesting thing. It knows a lot about places and people. It has adventures and escapes and thrills. It is bursting-full of experiences and stories. Yet, I'd say that train hasn't as much personality as the old house that stands at the end of the bridge, and has stood there since long before those tracks were laid."

"That old house has seen babies

born and people die. It has lived with people, suffered with them, and been happy with them. A house, you might say, develops a personality from contact with people. Sympathy, that's it! That's what personality is. "Take a river and a pond! A river is like a train. Interesting because it's been places and knows things. But it doesn't, in a way, know half as much as the quiet pond where all sorts of trusting, living things have homes under its surface. Every day it's the same with people. There are people who learn more about life standing still than those who have circled the globe. They are interested in other things and other people besides themselves and it is by this contact they grow rich. Some people can go through life with every apparent blessing and never rub elbows with it. They are not interested. In anything except as it concerns themselves. These people have no personality, usually."

"And now if you don't understand, run along and look it up in the dictionary, my son!"

THE TINYMITES

By Hal Cochran

READ THE STORY, THEN COLOR THE PICTURE

THE whipped cream bowl went down the street. "I hope that this will be a treat," said Clowdy, as he trudged along, excited as could be. "The bowl has promised us some fun. We'll follow wherever it goes. Can anyone imagine what it is we're going to see?" Then Clowdy said, "Why start to fret about a thing like that? I'll bet the bowl is merely running us around to tire us out. But, gee, my curiosity just seems to have the best of me. I'm going to stick until we find what is to be found out."

The Tinies' friend, the baker man, mood back and watched them as they ran. "I guess I'll let them go alone. They'll be all right," said he. "They'll all come back when they are through, and I have lots of work to do. If they are playing with the bowl they will not bother me."

When they had run a wee bit more, wee Carpy cried, "My legs are sore."

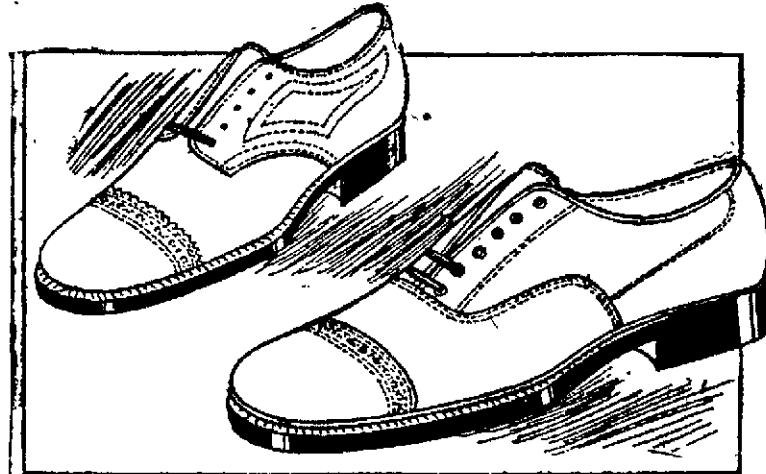

Come on, let's stop and rest a while. I fear we all will ache. The bowl then answered, "Don't stop now. Try hard to follow me somehow. Ten minutes more to get there is about all it will take!" Ten minutes very quickly passed, and the bowl yelled loud and last! Here's where we stop and very soon I'll show you at a trick. Now watch me close, 'cause first of all some small cream puffs I'm going to call. "Oh, goody," shouted Clowdy. "This is going to be real slick!" The wee cream puffs came marching out and, with a very merry shout, they walked before the whipped cream bowl. 'Twas almost like a dream. As each cream puff paraded by, the bowl tipped forward. "Me, oh, my," said Clowdy, quite excited. "It is filling them with cream!"

(The Tinymites find some queer horns in the next story).

NEARBY  
TOWNSCOPP FOURTH MAN  
SEEKING ELECTION  
AS KAUKAUNA MAYOR

Weifenbach Decides to Become Candidate for Alderman from Fourth Ward

Kaukauna—Late Tuesday afternoon two more men became candidates in the annual spring election. W. H. Copp decided definitely to enter the race for mayor and took out nomination papers. At the same time Hugo Weifenbach, cashier of the Farmers and Merchants bank, announced he was a candidate for alderman in the fourth ward.

Copp's entrance into the mayoralty race brought the total number of candidates to four, the others being R. M. Radach, Mayor W. C. Sullivan and Lester J. Brenzel. Three of the four are southerners, and from the fourth ward Radach is the only north side candidate.

Weifenbach will run against Charles Collins for fourth ward alderman. W. H. Copp is the present alderman from that ward whose term expires.

STUDENTS ENTERED IN  
SHORTHAND CONTEST

Youngsters Will Copy Dictation Given Over Manitowoc Radio Station

Kaukauna—Students of the commercial classes of the Kaukauna High school will participate in the second radio shorthand contest to be broadcast by Lincoln High school of Manitowoc, in cooperation with WOMT, at 6:45 p.m. Tuesday evening, March 19. The contest is being directed by G. L. Appleton of the commercial department of the Manitowoc school. Kaukauna students will receive the tests over radio sets in their own homes.

The Lakeshore contest was the first of this kind in Wisconsin in March of last year and it was received with enthusiasm in Manitowoc and surrounding districts. The dictation for those participating outside of Manitowoc will be at the rate of 80 and 100 words a minute and will be for students of shorthand only. There will be an additional 120 word take for stenographers in Manitowoc. Failure of stenographers outside of that city to compete last year caused it to be conducted as a school contest. Satisfactory medals will be awarded for the winners of each take. A bronze medal will be given the winner of the 50 word take, silver for the 100 and gold for the 120. Certificates will be issued for all qualifying with an accuracy of 95 per cent.

Important announcements relative to the contest will be made on Friday night, March 9 between 6:15 and 6:45 and the winners will be announced over WOMT at 6:45 Friday evening, March 26.

Rules for the contest are: All shorthand notes must accompany the transcript, contestants may transcribe in pen, pencil or on the typewriter, the name and address and occupation must be written at the top of each sheet and all transcripts and shorthand notes must be sent to the contest committee bearing postmark not later than 6 o'clock Tuesday evening, March 20. All papers will be marked according to the rules of the National Shorthand Reporters' association. In case of a tie in the number of transcript errors, spelling and punctuation will be considered.

Members of the contest committee are A. Kollath, Miss O. Maedke and E. Napierinski of Manitowoc High school.

HIGH SCHOOL SQUAD  
READY FOR TOURNAMENT

Kaukauna—Coach Harry McAndrews put his basketball squad through its final workout before the Menasha district basketball tournament on Tuesday evening. The coach announced all of his regulars are in fine condition and will be ready to play Menasha at 9:15 Thursday evening in S. C. Cook armory at Menasha.

Willis Miller, regular center, whose father died Saturday morning, will be able to play it was learned Tuesday afternoon. It was the father's wish that the boy participate in the tournament.

Over two hundred students and townspeople will follow the team to Menasha. If the Macmen win their first game the prospects of going into the finals are good, because both Beloit and Lomax are rated below Kaukauna and the Orangemen will meet the winner of that game.

APPOINT LEADERS  
FOR SCOUT TROOPS

Men and Boys Cooperate to Make Scouting Active in Kaukauna

Kaukauna—Several appointments were made at a meeting of Kaukauna Boy Scouts on Monday evening in a meeting to be held at Appleton Wednesday evening, March 14. Members of the senior troop assisted the new scouts in taking their tenderfoot tests. On Saturday the troop will take its fourteen mile hike. This hike is required as part of the test for a first class badge and it will be an observation hike. Each of the scouts must make a map of the road taken and place on it the important items of interest seen on the way. The map will be checked for its correctness by the pathfinding examiner, Mr. Charles Wirth.

The examination on Wednesday evening will be held at the Appleton High school at 7 o'clock. The court of honor schedule for March and April will be as follows: 7 o'clock, Wednesday evening, March 14, second class review, 7 o'clock; Wednesday evening, March 21, first class merit badge examination, 8 o'clock; Wednesday evening, March 28, awards to scouts by the court of honor, 7 o'clock; Wednesday evening, April 11, second class tests, 7 o'clock; Wednesday evening, April 18, first class and merit badge tests, 8 o'clock; Wednesday evening, April 25, meeting of the court of honor.

Important announcements relative to the contest will be made on Friday night, March 9 between 6:15 and 6:45 and the winners will be announced over WOMT at 6:45 Friday evening, March 26.

Rules for the contest are: All shorthand notes must accompany the transcript, contestants may transcribe in pen, pencil or on the typewriter, the name and address and occupation must be written at the top of each sheet and all transcripts and shorthand notes must be sent to the contest committee bearing postmark not later than 6 o'clock Tuesday evening, March 20. REVIVE OLD CUSTOM  
OF BLESSING NETS

Blackrock, Cork, Irish Free State—(AP)—After a lapse of 100 years, the ancient custom of blessing fishermen's nets has been revived here.

Participating in the first revival of the picturesque service, 136 fishermen stood in their boats with bare heads during the 15 minute ceremony, then put out into the deep.

# NEARLY 4 MILLION DOLLARS AVAILABLE FOR ROAD PROGRAM

## Large Share of the Money to Be Spent Will Go for Concrete and Rock

Madison (AP)—Contracts on nearly fifty highway projects in Wisconsin are being let this month by the state highway commission, pointing to the spring opening of highway work on 178 miles of state and federal highways.

More than \$3,530,000 has been set up as the sum available for these surfacing, grading and paving projects.

Most of the money, \$2,667,534, will go in concrete, 77.73 miles of the "program" being for that type of work. Crushed rock surfacing on 64.81 miles will cost \$790,000 and more than \$144,000 will be spent on both shale surfacing of 9.6 miles and gravel surfacing of 11.9 miles.

In Green county, \$81,040 has been set up for six miles of crushed rock surfacing on state highway 39, known as the New Glarus-Hollandale road.

United States highway 41, in Marinette county, will be surfaced with concrete for 4.61 miles at an approximate cost of \$182,692. This is called the Green Bay-Oconto road in the specifications.

Shaviano county's Green Bay-Bondel road, state trunk 160 is scheduled for 6.23 miles of concrete at a cost of around \$211,445.

A fund of \$65,000 has been set up for the 2.49 miles of concrete on state highway 96, the Greenleaf-Wrightstown road, in Brown county and a concrete improvement of U. S. 10 in Manitowish county of 7.25 miles of the Reedsville-Whitewater road will cost about \$260,000.

The set-up of funds for the New London-Clintonville road in Waupaca county, state highway 26, is \$185,839. Seven miles of concrete are on the schedule for this road.

In Clark county two miles of concrete on state trunk 13 Dorchester-Stetsonville road, will cost \$71,000 the commission estimates.

The Cadott-Stanley State road 29 improvement of 7 miles of concrete in Chippewa county is scheduled at \$234,855.

A crushed rock surface job on state highway 23 between Dodgeville and Spring Green is estimated to cost \$91,500. It will be 7.69 miles long.

coming known as "Molly," the Gal from Chi.

Here she meets and is loved by two men, both of whom she believes to be crooks. One is dapper and well-favored. Handsome Joe they call him. The other is Elsie's Drummond, who is in reality what Molly believes him to be. Characters of the tenderloin, cops, and the hodge-podge of the city, surge about Molly, and the pathetically weak figure of the brother whose life is at stake. The old father, back in Dixie, must be kept in the dark as to his son's distress, and the boy must be free. After many hair-raising adventures Molly accomplishes all she set out to do, winning incidentally the heart of the dapper gent, who is not a crook after all.

Myrna Loy, has the big chance of her career and she gives a marvelous characterization. Conrad Nagel, who for a large part of the play is in the guise of a bad man—plays his unfeeling manliness and power, and William Russell, as Big Steve, is masterful. Enright's direction shows the good judgment of the producers in choosing him to bring the powerful story to the screen. A great melodrama, superbly acted and staged.

**"THE STUDENT PRINCE"**

On the shoulders of Ramon Novarro has descended the mantle of Richard Mansfield—and he wears it gloriously.

"The Student Prince" is his inheritance to the famous tragedian; as Karl Heinrich, the role Mansfield immortalized before the footlights. Novarro has "carried on" upon the screen—in one of the most wonderful performances in the history of the silver sheet.

"The Student Prince" is a story the world loves; a story that has been played in every corner of the world—and as a screen play it makes history. Ramon Novarro and Norma Shearer have added a new triumph to the screen as a whole—and have given the silent drama a new classic.

The new picture, playing at the Elite Theatre for 3 more days, has even more charm than the stage play itself. Adapted from Meyer Foerster's original novel, on which the play and its recent revival as "The Student Prince" were founded and directed by Ernst Lubitsch—who knows better, perhaps than any other director, the people of the story, it fairly amazes. One is transported to Germany; one revels with the young prince in the Heidelberg garden; one shares his poignant tragedy. Lubitsch's direction is masterly; especially in such delicate touches as the garden scene.

It is a simple story of the love of a boy and a girl—but Metro-Goldwyn-Mayer gave it a whole nation as a background. The coronation celebration, and other elaborate detail, in which whole towns were built, in which two thousand people took part; these form a gigantic and inspiring background to the gorgeous story of youth and love.

## How To Play Bridge

By Milton C. Work

Yesterday's problem was: Contract, Hearts; South Declarer, North Dummy; the initial lead is shown. How should Declarer operate his twenty-six cards?

Declarer can see at a glance that he is practically sure of a Small Slam and can make a Grand Slam easily if the Spade finesse succeeds. However, the fifty per cent risk of this finesse may be avoided if a good Club can be made up in Dummy and the Queen of Spades discarded on it. Declarer therefore should plan his campaign and play as follows:

Take the first Diamond in Closed Hand with an honor, keeping the Diamond Jack as an entry in Dummy; then lead the singleton Club from the closed hand, taking it in Dummy with the Ace; returning a small Club from Dummy and ruffing it with a trump honor in Closed Hand. To trick 4, a small trump from Closed Hand, won in Dummy; and to trick 5, a second small Club from Dummy, again ruffed.

## SPRING IS HERE IF ROBINS ARE AN INDICATION

Official announcement of the arrival of spring has finally been made. Harry W. Shannon, clerk of courts, said Tuesday that he could now sell his overcoat for sure.

"I would never get rid of my overcoat if I saw but a single robin but I actually saw two of the birds, honey-mooning on the trees in back of my house and discussing plans for a new home." Mr. Shannon said. "I could tell they had just been married from their actions and I know that is a sure sign of spring. One of the birds, probably Mr. Robin, came to my back porch and picked up a long piece of string, probably to be used as a part of the foundation for their new home."

**PUT CREAM IN NOSE AND STOP CATARRH**  
Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

## MAKE NO PLANS FOR OILING CITY STREETS

Although \$5,000 was allowed in the city budget for street oiling purposes, no plans have been made for the work, according to Mike Steinhauer, chairman of the street and bridge committee. Many persons object to street oiling, Mr. Steinhauer said, and for that reason the city is reluctant to use the material. However, some oiling probably will be done this summer.

With Neenah high school favored to battle either its ancient, Twin City rival, Menasha, or the strong Berlin team, only conqueror of Waupun this year, in the final battle for the district title, the 1928 Menasha district high school basketball tournament will open Thursday at S. A. Cooke Armory, Neenah. Little is known of the real strength of some teams entered except that they have shown flashes which ranked them with the three favorites in some of the season's games and it is fairly probable that should they show this "stuff" during the meet while some leader has an off night, none of the three teams mentioned above may play in the final finals. The complete program is above.

The opening day's games furnish some of the most evenly matched first day battles in a number of years though W. DePere-Neenah, Berlin-Lomira are favorites. The DePere-Neenah finished near the top of the N. W. I. conference, losing to a few teams, including two to Neenah in the conference. New Holstein, though a smaller school, has won nine of eleven games, being undefeated champion of the Little Six schools, consisting of Kiel, Elkhart, Lake, Sheboygan Falls, Chetek, and Plymouth. It lost its only two games to close margins to Valders, a favorite in the Algoma district tourney, so a close struggle is in prospect.

**NEENAH FAVORITE**  
 Neenah, playing its best ball, probably will have the easiest victory Thursday, but even that game should be interesting with the possibility of an upset. The Neenahites won the N. W. I. title with nine wins and one loss and added two victories over Appleton high school of the Valley conference. Appleton's record while not good, includes losses by close margins to some of the strongest teams in the district. Neenah beat Ripon, 20-16; Berlin another meet favorite did the same, 16-14; Watervorn, champion of the Little Ten and conqueror of Wisconsin high of Madison, did it, 20-14; and Beaver Dam did it, 20-18, showing the College city team as a group of scrappers to the end. Included in their victims is Brandon, always a placewinner in the old Appleton district meet where it twice finished second to Appleton high. It's just too bad the Riponites have to meet Neenah the first day.

**THE BEST GAME**  
 Berlin has beaten Brandon, Ripon, Horicon, Mayville and others of like strength and lost by a 20-18 margin to Oshkosh, 1928 Fox River Valley conference champion, when the Sawdust city crew had its early-season team, its best combination. Lomira has an equally good record, however, winning twelve straight games during the season without taking a licking, as the only undefeated team in Fond du Lac-co. Brandon was beaten by about the same sized crew as Berlin beat that team and North Fond du Lac also was a Lomira victim. The closest score the Lomirans were held to all season was 21-15 by Campbellsport, all the other victories being by at least 8-point margins. This game should be the best of the opening day's play, a closely-fought battle, with Berlin given a slight edge.

The final game of the day also will be a nice battle if Kaukauna keeps up its fine play of the last few weeks. Menasha is the favorite, especially on the home floor, but the Kawmen have suddenly found their stride after a season of 13 straight defeats. Against Appleton the Electric city crew outplayed the Orange the first half but broke in the final minutes under an Orange rally. The team of Appleton, which was defeated by Clintonville and Kiel in two straight games, the former being its only conference win of the year and the latter allowing it to enter the district meet. Menasha has about the same team as won the meet last year with one or two exceptions, but these exceptions seem to have hurt it considerably. It has won all but three games, led by Godhardt, all-district forward last year, losing by one point to Two Rivers, a favorite at Algoma and second place winner in the N. W. I. conference, and twice to Neenah. The team's largest score was defeated by this year. Two Rivers was the only team to beat Neenah this year. Then Menasha always plays better ball under the stress of tournament play.

reverts star. Harris further has Luther Roy, Lloyd Brown and Clarence Griffin, all of whom were successful in the minors last year, to pick from Coach Al Schacht has a good word to say for Van Alstyne's chances of being a first class flinger this year. The first base question is still unsettled but Harris denies that Judge will be traded. Goose Goslin and Sam Rice are almost sure bets for two of the outfield posts and Sam West may be the man to step in where Speaker roamed last year. Muddy Ruel and Bennett Tate are the first string catchers. Hugh McMillon, last year with Louisville, and Al Cooper, late of Birmingham, are striving for the second string role.

That gives you a fair idea of the team Bucky Harris is figuring may upset the cocky Yankees. Just how well this outfit will hit is a question even Nick Altrock will not be quoted on. At some positions the Senators are equipped with far from robust hitters, especially in center field if West should get the call there. He batted .239 last summer although he did not play in the majority of games.

### ST. MARY'S TAKES BETTENCOURT'S 20 FROM GRID USAGE

San Francisco-Illinois started a novel custom several years ago when it took a tattered and torn jersey with a big "77" on the back and placed it in a position of honor in the university trophy room. "77" was Red Grange's football number and it was announced that as a tribute to Red, the number never would be used again.

Stanford then came along and put away a sweater with a large number "11" on it in memory of Ernie Nevers, one of the greatest players of all time.

St. Mary's College, of California, recently paid tribute in the same fashion to Larry Bettencourt by hanging up his number "20" sweater and ordering the number withdrawn for squad usage.

### FORMER APPLETON BOY ON MICHIGAN MITT CARD

Robert "Bob" Moore, guard on the Appleton high school basketball team two years ago and since then a member of the Citizens Bank five other local industrial teams, is gaining a quite a reputation in two sport lines at Iron Mountain, Mich., where he accepted a position with the S. S. Kresge Co., last fall. Moore, a son of Mr. and Mrs. J. R. Moore, not only plays guard and forward with the Iron Mountain Nightingales, the city team, but also is starring as a boxer.

The Nightingales have won from the Neway Cardinals, Niagara City Red and Crystal Falls Ramblers by scores of 32-19, 25-13, 46-12 and 52-48, playing two games with one team. Niagara defeated the crack Neenah-Menasha Yellowjackets recently.

Friday evening Moore battles in a four-rounder on the card of the Iron Mountain arena legged pugilist, a favorite of Waldville of Niagara. For the four rounds of milling he will receive \$25. The main bout of the evening is between Mickey O'Neil, Marquette university journalism student whom Milwaukee sport scribbles class as a leading lightweight title contender with a few more fights under his belt and Eddie Walsh of Chicago.

port, all the other victories being by at least 8-point margins. This game should be the best of the opening day's play, a closely-fought battle, with Berlin given a slight edge.

The final game of the day also will be a nice battle if Kaukauna keeps up its fine play of the last few weeks. Menasha is the favorite, especially on the home floor, but the Kawmen have suddenly found their stride after a season of 13 straight defeats. Against Appleton the Electric city crew outplayed the Orange the first half but broke in the final minutes under an Orange rally. The team of Appleton, which was defeated by Clintonville and Kiel in two straight games, the former being its only conference win of the year and the latter allowing it to enter the district meet. Menasha has about the same team as won the meet last year with one or two exceptions, but these exceptions seem to have hurt it considerably. It has won all but three games, led by Godhardt, all-district forward last year, losing by one point to Two Rivers, a favorite at Algoma and second place winner in the N. W. I. conference, and twice to Neenah. The team's largest score was defeated by this year. Two Rivers was the only team to beat Neenah this year. Then Menasha always plays better ball under the stress of tournament play.

### READY FOR BIG SEASON

The end of an active winter spent hunting, riding, fishing and hiking in the woods of Georgia finds Ty Cobb in splendid physical condition, ready to play with the Athletics again. O. B. Keeler, his friend and fellow-Georgian, says Cobb "is in condition today and could play ball tomorrow." The veteran will do his sharpshooting with a bat instead of a gun for the next few months.

### Tilden Leads American Challenge In Davis Play

New York. —(AP)—America will launch her 1928 Davis cup campaign next week with Big Tilden in command and harmony in the ranks, at least so far as present prospects go. The debates of the past may be revived a little later on when it comes to deciding just what is to be done about sending a team to Europe but that, all hands agree, can be put aside while energies are concentrated on the play in the American zone. For the present the decision is made. There will be only one American team and its full strength, which means the presence of Big Bill, will be tossed into the zone competition against Mexico, China and probably Japan.

In the combination role of captain and coach, Tilden will call the roll next Monday at Augusta, Ga. where the first tennis training camp in American tennis history will be established.

One of baseball's happy hunting grounds has been chosen for this unique event. Augusta not only is the present headquarters of baseball's "Little Napoleon," John McGraw, and the Giants, but also the home of Tyrus Raymond Cobb.

Like Tilden, Cobb is also attempting to carry on in the big show, although both readily admit their futures are behind them. It is worth mentioning, incidentally, that Tilden once entertained baseball ambitions himself. He cavorted around many a Philadelphia diamond before his name became internationally conspicuous in tennis.

Tilden will have sold authority in selection of the American Davis cup team. Big Bill has taken orders for eight years of international competition but this year he will be the chief strategist as well as the chief performer.

At the same time he will impart the full benefit of his experience and racquet skill to the up and coming youngsters, upon whose shoulders much of the future's hopes rest.

If Tilden cannot himself occupy a major playing role in the attempt to bring the cup back to America, he will at least spare no effort to develop youngsters who may upset the French regime in the future.

Little Bill Johnston, long Tilden's partner in international triumph, seems definitely out of the Davis cup picture. Thus, taken back to America, he granted last September after the Californian's downfall in the challenge round with France but talk of another come-back by Little Bill was revived over the winter. Now, however with Johnston missing from the spring training squad and the American zone play it does not appear likely he will be called on later.

**MANAWA GRADE SCHOOL BEATS ROOSEVELT BOYS**  
 Manawa's graded school basketball team continued its two year winning streak by defeating the eighth grade of the Roosevelt junior high school of Appleton at that city, Saturday afternoon, by a 16 to 11 score.

Three field baskets in the first quarter and another in the second period gave Manawa an 8 to 1 lead at the half, as Appleton's only score was a shot by White. At the beginning of the second half, Bowhly, Roosevelt forward, sank two field goals and a pair of free throws before being ejected from the game on four personal fouls. Two free throws by White and a goal from the field by Krick put Appleton in the lead 11 to 10, as Manawa had been unable to add to their total except on gift shots by Walsh and Noian.

With only three minutes to play and Manawa behind for the first time in two years, the local team put on a burst of speed and Lindow, Guerin and Vaughan flashed through Appleton's defense for the baskets that won the game.

**BLUE KEY TAKES CHARGE OF VIKING TRACK MEET**  
 Arrangements for entertaining up to 50 high school teams which are expected to come to Appleton to enter the Lawrence Inter-scholastic Track and Field Meet, May 19, have been turned over to members of Blue I, a student honor society composed of lettermen and campus leaders.

Plans have been concluded to divide the entering schools into two groups according to size, the B section to meet in the morning and the A section in the afternoon.

**Tallest Man in Majors**  
 "Slim" Harris, Boston Red Sox hurler, who is six inches taller than 32 feet, is the tallest player in the major leagues.

### SHORTY SHOE FIVE SWAMPS GIRL TEAM

Manitowoc Follies Little Match for Little Chute Male Quint

Kimberly — Shorty's Shoes, male quint of Little Chute, trimmed the Manitowoc Follies Five, leading girls' team in this section of the state playing under boy's rules, 43-25, Tuesday evening at the Kimberly Clubhouse. The Follies squad led during the first part of the game but the Shoes forged ahead rapidly after the half.

Both teams caged a basket apiece at the beginning, but the girls followed up with two more to lead. The score stood 10-7 in their favor at the close of the first quarter. The Shoes scored eight points to four for the Manitowoc during the next session and led by one point at its close.

Little Chute was in the lead 25-19 at the close of the third quarter, and during the final session broke loose and went through the Follies defense time after time to score while holding the visitors to seven points.

**VANDENBERG LEADS**  
 Vandenberg led the Shoes in scoring, caging seven baskets. Gunderson sunk five ringers, Schommer four and a free throw and VanHandel four. G. Bonin, right forward and L. Wilsman, center, starred for the losers, the former getting five field goals and the latter five and a free throw. Several of Bonin's ringers were scored on long shots.

**ACES WIN ANOTHER**  
 Lefty's Aces won the Hecker Shoe squad of Appleton 43-15, in the preliminary. The Aces led 21-4 at the half. LeMay and Gossens scored 11 points apiece and DuPont 9 for the winners. Ellis and Smith scored four points and McGraw five for the Shoes.

**Takes to Barry's Idea**  
 Harold G. Olson, Ohio State basketball coach, would like to see basketball officials adopt the idea of Sam Barry, Iowa State coach, to abolish the jump ball at center.

**Shoreport, La.—(AP)—**Most of Manager Ray Schalk's talent seeking places on the Chicago White Sox lineup are up showing promise as the squad continues its training.

In Tuesday's victory over Shoreport, 9 to 8, Schalk was pleased with the work of George Redfern at second base. His fielding was perfect and his hitting timely.

**Clearwater, Fla.—(AP)—**The Brooklyn Robins Wednesday were assured of additional hitting punch. They are acquiring Rube Bressler, Cincinnati

### HOT FROM TRAINING CAMPS

Augusta, Ga.—(AP)—Although John McGraw was not seen during the recent exhibition games of the Giants in Florida, he has supplied a mystery for the players by rehearsing their shortcomings. His skull practice drill has been chiefly concerned with trapping runners between second and third.

**Pasco Robles, Calif.—(AP)—**The Rockies of the Pittsburgh Pirates made it four straight Tuesday when they won the intra club game from the regulars, 9 to 4.

Jones, recruit second baseman, was the heavy hitter, getting a two bagger and two singles. Joe Harris, playing first base for the recruits, was held hitless.

**San Antonio, Tex.—(AP)—**Part of Detroit's surplus infield and outfield material may be bartered for pitchers, the management has indicated.

Of the nine recruit pitchers who reported for training none have exhibited form that would warrant first class ranking.

**St. Petersburg, Fla.—(AP)—**If the Boston Braves look as well when the season gets under way as they did Tuesday when they held Washington to a scoreless tie, they won't even get within hailing distance of their accustomed quarters in the cellar. At least that is what their loyal rooters think.

**Bradenton, Fla.—(AP)—**Manager Bill Carrigan's plan of giving the rookies a chance to show everything they have has resulted in turning up one bright spot for the Boston Red Sox.

Joe Cicero, 16-year-old Atlantic City flash, is the boy. Joe walloped out a homer that was good for three runs.

**Avalon, Catalina Island, Cal.—(AP)—**About \$200,000 worth of pitching talent, as estimated by Manager McCarthy, paraded before the Catalina Island baseball experts Tuesday when the Chicago Cubs won from the goofs, or second team, 4 to 3.

After a morning workout Wednesday the club was to go to the mainland for four days of exhibiting.

**Shreveport, La.—(AP)—**Talent manager Ray Schalk's most of places on the Chicago White Sox lineup are up showing promise as the squad continues its training.

In Tuesday's victory over Shreveport, 9 to 8, Schalk was pleased with the work of George Redfern at second base. His fielding was perfect and his hitting timely.

### HOMER OVER FENCE NO GOOD FOR "FAT"

"Jumbo" Elliot Thrown Out at Plate on Smash Over Wall

Clearwater, Fla.—The woes and hurts of spring training are never too great for the Brooklyn Dodgers to enjoy the humor that daily comes up in their baseball labors.

Although many a muscle is creaking after a long winter of idleness, the players are usually engaged in some horse play, especially when the watchful eye of Uncle Wubert Robinson is temporarily turned away.

In one of the early practice games an amusing incident came up which furnished the boys quite a laugh and might consequently give Jumbo Jim Elliott enough material to crash the "embarrassing moments" column that is featured in so many newspapers.

Jumbo Jim, who weighs 235 pounds was at the bat and facing him in the box was none other than the elongated Dazzy Vance. With the count three and two, Vance laid one right through the groove and the monumental Elliott "cowtailed" the cripple for a regulation home run over the right-field fence.

Doug McWeeney, who was playing in right field, noticed a small door in the right field wall, and darted out this opening to retrieve the ball, Elliott, meanwhile was circling the bases with slow lumbering strides. As Jumbo Jim was rounding third, McWeeney started his peg to the plate. Imagine Jim's surprise when he was tagged out five feet from the plate and on a throw from outside the park.

To top it off, Coach Nap Rucker, acting as umpire, dramatically waved Jim to the bench.

**HARVARD, ARMY SIGN 4-YEAR GRID CONTRACT**  
 Cambridge, Mass.—(AP)—A four-year football agreement between Harvard and the Army is announced by Arthur J. Blighman, director of athletics at Harvard. The first game will be next fall at the Harvard stadium, where all games will be played except in 1931 when Harvard will visit West Point.

Harvard will play Michigan at Ann Arbor in 1929 and at the Harvard stadium in 1930.

 The Chicago Cubs may have a brother this season. Granville Bush, a brother to Guy Bush, is trying out with them at their California spring training camp.

# Dave's Dots And Dashes

We are printing in it's entirety a letter received Tuesday from a Fond du Lac sport fan. This fan probably remembers what close calls Fondy's Valley champs had from hands of Neenah high in games played last year and that Neenah at that time took one of two games from Appleton, which was the only team to beat Fondy all year and which finished second to Fondy in the Valley loop. This year Neenah beat Appleton twice 20-18 and 20-15 and the Orange only lost to Oshkosh by a basket in the final six seconds of an overtime period.

## OSHKOSH VALLEY CHAMPS NO, NOT YET

We would like to know who is the high school basketball champion of the Fox River Valley. Oshkosh, eligible claimants of the "Big Eight" and Neenah, winner of the Northeastern Wisconsin Conference title, both having top notch records which enables both to lay claim for the championship of the Fox River Valley. Each having been defeated but once and with a string of victories not to be sneezed at.

I wish to suggest that a game be played between the two schools on a neutral floor, preferably Fond du Lac, or Appleton, to settle the supremacy of the two institutions, to determine the complete rightful champion of the Fox River Valley. What say?

would be a real battle from start to finish. Talk about two speedy teams!

There's one big thing against it however. That is Neenah is likely to win the Menasha meet, in which case it would go to Madison and after that time there is no time for a game and a little interest left. There might be a possibility of a game on the weekend between tournaments but again that'd be taking too much of a chance for Neenah injuries that would hurt its chances at Madison and as well as putting it out of the condition which Coach Ferguson must work up in the time between meets. However, if anybody can find a possible way of getting the teams together for a Valley title game without interfering with anything we're for it. Too bad Oshkosh can't go to Madison so they could meet there or that the pair could meet in the finals of the district meet to settle both district and Valley honors at one shot, as would be the case in the past years. We'd like to hear your suggestions, Appleton, Neenah and Oshkosh fans, and perhaps so would the two coaches and schools.

Pitchers who can hit are usually so scarce that they promptly are converted to other tasks. Babe Ruth, Paul Waner, George Sisler, Lefty O'Doul and Jack Bentley are a few of the stars who were lifted from infield to the pitcher's box.

Consequently, it may be guessed how comfortably Connie Mack is fixed for outfielders when he takes a player like Ossie Orwell, who batted .370 for the Milwaukee club in the American Association last year and builds him up as a pitching prospect.

All Orwell would need to do to break into the outfield is outplay a group that includes Speaker, Simmons, Miller and French.

## ILLINOIS BODY MIGHT SUSPEND TWO ATHLETES

Chicago—(P)—The two major problems of the Illinois State Athletic commission were laid before the state attorney general Wednesday, with trouble promised for some important figures in the ring and mat world if the commission's contracts are declared legal and binding.

Ed (Strangler) Lewis faces a suspension or fine for not appearing on the scene of his wrestling match with Alex Garkawienko five days before the contest, while Sammy Mandell may inherit some further penalties if his manager tries to evade the contract with promoter Jim Mallon.

The Illinois commissioners feel their action in suspending the pair would be binding in the 27 states of the National Boxing Association.

Indianapolis—Jack Malone, St. Paul, outpointed Dobbie Williams, New York (10). Jack Kane, Chicago, knocked out K. O. Victor, Cincinnati (4).

## COMPLIMENT APPLETON CAGERS ON STALLING

Such a revelation of perfect stalling was that exhibited by the Appleton Coated Paper Co. basketball team in the final game of the Northeastern Wisconsin district amateur cage tournament of the Y. M. C. A., held Saturday evening at Green Bay, that not only fans who witnessed the game, but Bay sport scribes as well, became enthused about it. The local Industrial league leaders came from behind in the last two minutes to take a 30-28 lead over the Green Bay Y. M. C. A. five and then stalled the remaining time of the game to win the district title and a trip to the state meet at Janesville later in the month.

During the last two minutes the local team passed the ball all over the floor yet not a Bay man hardly touched it. The work had fans declaring it to be the best stalling they ever had seen and as good as the collegiate brand. Now here's what Bay sport scribes, covering the meet had to say:

## GOOD STALLING GAME

"That which followed was the feature of the game, for the Appleton gang started and maintained the neatest piece of basketball head and hand and footwork seen here for some time. For almost two minutes they carried out a perfect stalling game. The ball went to all parts of the floor, but it never got into the hands of a 'TV' player. The crowd was on its feet as the local boys tried in vain to intercept the passes from one Appleton man to another."

## No More Gas In Stomach and Bowels

If you wish to be permanently relieved of gas in stomach and bowels, take Basalman's Gas Tablets, which are prepared especially for stomach gas and all the bad effects resulting from gas pressure.

That empty, gnawing feeling at the pit of the stomach will disappear; that anxious, nervous feeling with palpitation will vanish, and you will again be able to take a deep breath without discomfort.

That drowsy, sleepy feeling after dinner will be replaced by a desire for entertainment. Bloating will cease. Your limbs, arms and fingers will no longer feel cold and "go to sleep" because Basalman's Gas Tablets prevent gas from interfering with the circulation. Get the genuine in the yellow package at any good drug store. Price 50c.

Always on Hand at  
SCHLINTZ BROS CO.

## TABERSKI TAKES LEAD IN BILLIARD TOURNAY

Chicago—(P)—Frank Taberski of Schenectady, the national pocket billiards champion, held the lead in the present tournament for the title Wednesday. The only undefeated entry of the ten in the field. He has yet to meet Ralph Greenleaf of Philadelphia and Erwin Rudolph of Chicago, former champion, each of whom has lost one game.

Rudolph received his first setback in the meet Tuesday from Joseph Cannon of Washington, the ninth place entry 125 to 95.

## SCHAEFER WINS THIRD BLOCK IN TITLE MATCH

San Francisco—(P)—Champion Jake Schaefer played superb billiards to overcome Challenger Edward Horemans' big lead and win the third block

## Book Of Knowledge

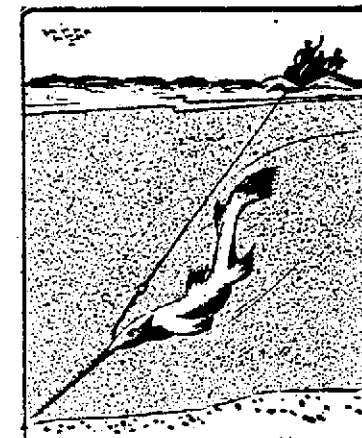

Terrors of the Deep

A shark gives a clean terrific bite which is swift death. Next door to the sharks in relationship are the sawfishes. In these huge brutes the upper jaw is continued in a long, jagged beak, set with dreadful teeth. The saw is used to gash open the soft under parts of a whale or a large fish and to feed on the product of the attack.

The sawfish can cut a man in half with one sidelong sweep. We often see the implements of sawfish in museums and antiquarian shops.

In 1923 in Panama Bay a sawfish dragged a fishing boat away after it had been caught on a 14-pound steel hook.

It approached the steam yacht owned by one of the party. The owner cast a rope from boat to vessel and this was attached to a capstan to prevent the great fish from escaping. The fish hauled at the rope, dragged the yacht from its anchor and towed it for three hours. Eventually it was conquered. It proved to be 29 feet long. (To Be Continued)

Collection, Which Dates Back  
Many Years, Is Attraction  
at Show

Special to Post-Crescent  
New London—What is perhaps one of the finest collections of firearms in the state, both ancient and modern, is being shown this week at the city hall by Louis Kurszevski of this city. The collection shown is nearly all of small arms, pistols, revolvers, but the owner has another collection of large guns at home also includes swords and cutlasses.

Both Mr. and Mrs. Kurszevski are interested in guns and shooting and have done considerable work as exhibition shooters. He also owns a fine assortment of shells and cartridges, about 225 in all. The earliest of these is the paper cartridge of the type used in Civil War days. The smallest is that which fits a small hand made gun and there are no two alike in the whole collection. He has a linen cartridge which was of a later day than the paper one.

Mr. Kurszevski, in speaking of his display, related a fact which is very interesting. During the Civil War days, one of the tests given recruits was regarding the front teeth. The requirements of the test stated that the soldier must have sound front teeth. This was required because the paper cartridges must be torn open by the teeth while the other hand was busy with the gun. This fact was verified by Westley Dawson, a Civil War veteran, who visited the exhibition on Tuesday.

Mr. Kurszevski owns among other things an interesting and particularly wicked looking stiletto, said to be over 150 years old, having belonged to Italian Carbonaries, or char coal burners, a black hand society.

The weapon is adorned with double triangle, skull and cross bones.

PAROLE YOUTHS WHO  
BURGLARIZED LIBRARY

New London—Three boys who recently broke into the New London public library by way of a rear basement window appeared Tuesday in the county court, before Judge Mattin of that court. The youngest of the two seemed a lad who was drawn into an affair of which he knew little, while the others, being older were held more responsible. One of the lads attempted to evade the truth and came in for a scathing lecture from the judge, while the third who has appeared in court before confessed frankly and in detail of his part in the proceeding. The lads were paroled to responsible persons on probation.

Restful Ease After Coughing  
The result of using Foley's Honey and Tar for a dreadful cough, day and night, was a restful one for me," says Mrs. Anne Davison, Long Beach, Calif. The hard cough that follows bronchitis and "flu" is weakening and when it "hangs on" very debilitating. Foley's Honey and Tar Compound puts a healing, soothing coating on a rough, inflamed throat, and immediately eases the irritation that causes the hard coughs. Dependable. Ask for it. STOMACH DISORDERS  
First Revealed by  
Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble.

A coated tongue is a danger sign of those digestive disorders which lead to so many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Coating on the tongue is a sign that you need Tanlac—the medicine which has helped thousands from stomach and bowel troubles—who had "tried everything" in vain and about given up hope.

Tanlac contains no mineral drugs; it is made of herbs, roots and roots. Get a bottle from your druggist today. Your money back if it doesn't help you.

Most Men Carry Life Insurance

1. Many do not carry enough.  
2. Consider your insurance as an important investment for the benefit of your heirs.  
3. How much regular income do you wish your wife to have?  
4. Our function begins where the Insurance Companies leave off. By means of Life Insurance Trusts we help far-sighted men to arrange now, while living, how their insurance money shall be invested, and when and to whom the income and principal shall be paid.  
5. Think of your insurance in terms of the income it will produce.

IN CAGE TOURNNEY

Eight High School Players  
Will Go to Stevens Point  
Next Thursday

Waupaca—The basketball tournament to be held this week at Stevens Point will include teams from Friendship, Red Granite, Stevens Point, Waupaca, Wauntona, Weyauwega and Wisconsin Rapids. An elimination game Saturday night which will be won by Waupaca by one point, making Waupaca play Red Granite next Thursday.

The officials of the tournament are: W. A. Walter, Appleton, and Glen Holmes Madison. Only eight players will be allowed to go.

The Carroll College Glee club consisting of 20 male voices will give a concert in the high school auditorium Tuesday evening, March 20. The entertainment will be sponsored by the students of the high school.

In a letter received by Superintendent W. A. Wilson from the freshmen dean R. C. Mullen, Lawrence College, Appleton, he states that Mary Knight one of last year's seniors, is among the upper one-fourth in her average for the first semester.

Mrs. C. H. Hanson, Millist, will entertain at a 4:30 dinner Wednesday in honor of Mr. Hansen's birthday anniversary.

Mrs. James Limer spent the week end in Milwaukee.

Mrs. Walter Nelson is visiting her sister, Miss Wied in Duluth, this week.

Miss Evelyn Jones spent the past week in Milwaukee.

The social committee of the Baptist church will give a St. Patrick's social at the church Friday night.

Mrs. Sarah Johnson celebrated her ninety-third birthday anniversary Monday.

NEVER SUCH CLEANING POWDER—  
NEVER SUCH CLEANSING POWER

Cleaning methods have been revolutionized. The long hard days of back-racking scouring and scrubbing are a thing of the past.

CAL-X, the new cleanser and instant water softener, a snowy white and magic-like powder, gives absolute freedom from disagreeable cleaning features and tiresome drudgery.

Just a little CAL-X sifted into the water saves worlds of work and creates a more complete degree of cleanliness than was ever before possible.

CAL-X softens the hardest water instantly. Causes soap to "suds" freely and without waste.

Hastens all cleaning, because it vigorously attacks dirt, grease and grime, removing them with half the rubbing ordinarily required.

And because less rubbing is required, longer life is given to clothing and dainty fabrics.

In the bath, in the kitchen, in the laundry, CAL-X saves time, energy, worry and money.

Order a package of CAL-X from your grocer. Test it on the hardest cleaning task that you know of.

See for yourself in actual results the tremendous aid CAL-X really is.

Note the directions on the box and observe in how many different ways CAL-X will render helpful service. Cleaning with CAL-X is a delight. Its action is quick, sure and thorough.

# INJURED WORKMAN SEEKS DAMAGES FOR EMPLOYEE'S PRANK

## Papermill Worker Says He Was Struck in Eye by Missile Thrown by Fellow Worker

Testimony in two cases under the Workmen's compensation act was taken by Voyta Wratetz, industrial commissioner, at the first session of a two-day hearing which opened at the court house Wednesday morning. One of the cases involved a petition by Malcolm Tousey, Kaukauna, for increased compensation from Albert Luckow, Kaukauna contractor, because Luckow had violated an order of the railroad commission.

A hearing was held on a petition by Tousey for compensation for the loss of the sight of one eye while working for the Marquette Paper Mills company. Tousey was injured when a fellow workman threw a piece of metal which bounced off a roll of paper and struck Tousey in the eye. The accident occurred on Jan. 14, 1928. Testimony showed that Tousey had thrown a wad of paper at the workman a short time before the latter threw the piece of metal.

Hearing of the case of Leo Pesch against Riverside Fibre and Paper company was postponed. Testimony will be taken in only one case Wednesday afternoon. Three cases were on the calendar but one was settled and one was continued. The case of Louis H. Peotter against Hopsensperger Brothers is scheduled for Wednesday afternoon; the case of Amos Scharnman against M. Gabriel was settled; and the case of William Olm against Appleton Marble and Granite Works was continued.

Cases for hearing Thursday and Friday were: Joseph J. Dresely, Appleton barber; Joseph Lappen versus Chicago and Northwestern Railroad company; Werner L. and Meta Kozetka versus Rasmussen Wrecking company; Bennie Wenzel versus Nestle's Food company; Lloyd Locklin versus Timmers Composition company; C. A. Gilkey versus Combined Locks Paper company.

L. B. Retelle, reporter, is assisting Commissioner Wratetz.

**WISCONSIN WEATHER**  
Mostly fair tonight and Thursday, with cloudiness; not much change in temperature.

**WEATHER CONDITIONS**  
High pressure is pushing down the central valleys, bringing the weather slowly clearing weather and by lower temperatures from the Missouri valley to the Appalachians. This high appears to be receiving some reinforcement over northern Alberta this morning, which would give it strength to continue dominating the weather conditions in this section tonight and Thursday, with generally fair weather and probably slightly lower temperature tonight.

# CABARET FOR ELKS AT THEIR STAG PARTY

A hundred and fifty local Elks and their guests were treated to cabaret entertainment, several selections by the Elk band, directed by Ed. F. Mumm, and a short talk Wednesday night at the first of a series of stag parties and smokers. The entertainment consisted of songs by Miss Margaret (Peggy) Bouslog, dances by some chorus which took part in the recent presentation of the play "His Honor, the Mayor", and banjo selections by a Negro entertainer brought here for the occasion.

# RULE LEADS HAWES BY 419 PRIMARY VOTES

Fourth ward, and, with George Braundigan, who received 184 ballots, will go on the final ticket. Rudolph Prund received 87 votes; Jerry Callahan 55 and Charles J. Selig 81.

**HASMAN IS BEHIND**  
H. J. Friebe and Wenzel Hasman who filed his papers on election day, alderman of the Fifth ward, Friebe polled 101 votes more than the incumbent, getting 334 as compared with Hasman's 233.

One of the big upsets of the day was the polling of 215 votes by Richard Refke, candidate for alderman from the Sixth ward whose name was either written or pasted on the ballot. His 215 votes eliminated J. Henry Fiedler from the ballot. Fred Wieser, now representing the ward received 236 votes.

Refke was one of the candidates who filed his papers on Thursday, Feb. 23, one day late in the opinion of the city attorney, and therefore illegal. He then withdrew the papers and started work among the voters in the ward to write or paste his name on the ballot.

Refke, city treasurer, and T. H. Brunkle will go into the finals in the race for the former's office. Bachman counted 2,323 votes as compared with 1,208 for Brunkle, carrying every precinct. Alfred C. Bossler, who was unopposed for city attorney, received the largest number of votes of any candidate, 3,108, and was followed closely by George Peotter, unopposed candidate for assessor with 3,039. Twenty-four warders voted for M. Jacobs for assessor.

Following is the vote by precincts:

# DENY RAILROADS FIGHT UNIONISM

## New York Central Leader Answers Charges by John L. Lewis

Washington.—The first denial to charges of John L. Lewis, president of the United Mine Workers that railroads have conspired to break down unionism in the coal fields by exercising their large power, was made Wednesday before the senate committee investigating the bituminous industry by W. C. Bower, manager of purchases and stores for the New York Central.

He testified that he is not and has not been in any "conspiracy agreement, or understanding with any other railroad system or company to exert bargaining power to depress prices of railroad fuel or to favor non-union operators, or miners, or for any other similar purpose."

Earlier Joseph A. Meagher, of Wheeling, W. V., self-styled "human engineer," testified that his duties with the Ohio coal operators association were of a "military nature" in connection with the strike.

Meagher admitted that his industrial relations association had sent out a circular condemning the united mine workers as "a gigantic trust," and as a "warring machine that winks at patriotism."

The circular also attacked the membership of the association, for engineers, and Senator Wagner, Democrat, New York asked Meagher if he made a distinction between native born and naturalized Americans.

"Yes," said the witness.

## LIVE STOCK HEAD SEES BENEFITS IN EMBARGO ON BEEF

Domestic Consumption Has  
Caught Up With Produc-  
tion, Mercer Says

Topeka, Kas.—(P)—Domestic consumption has caught up with cattle and sheep production, orderly marketing is a realization and the American live stock industry consequently is in a normal and healthy economic condition. J. H. Mercer, chairman of the National Live Stock and Meat board, tells The Associated Press.

Mercer believes the embargo on South American live stock and meat has been beneficial and advocates establishing a higher duty on all live stock and meats and a substantial tariff on hides. Prices for hogs he regards as unjustifiably low, but predicts an improvement in 1928. "The existing embargo against imports of South American meat and live stock, established because of the danger of foot and mouth disease," has done more to bolster up cattle prices than many realize," Mr. Mercer said. "Argentine beef now is being laid down in Europe at prices several dollars lower per hundred than the same grades are selling in this country. If this embargo were not in effect, large quantities of Argentine beef and South American hides would be coming into this country in competition with American products and present cattle prices would be materially lower.

"While it is true that thousands of Canadian cattle are now coming into this country, the number is not yet sufficiently large to disturb our market to any great extent. However, we believe the present duty rate on live stock and meat is too low and not an adequate protection to American live stock producers. We contend further that congress should, without delay, place a substantial tariff on hides, which constitute the principal by product of the cattle industry, so that when the embargo is lifted the American markets will not become flooded with South American hides."

Hog prices he believes should be \$1.50 to \$2 higher, since hogs cannot be produced profitably at the prevailing prices, which he says are out of line with other food products.

"Living costs have increased 68 per cent since before the war, farm taxes 112 per cent and freight on grain and live stock has doubled," he explained. "In some instances where freight on a load of hogs in 1914 was \$45, it is now \$130 and so on down the line.

"While packers are urging a production increase, the attitude of packer-buyers at all the markets would indicate that we already have a greater supply than the channels of trade can use. The United States now produces approximately 40 per cent of the world supply of hogs and will continue to dominate this field for many years to come, until domestic consumption is able to absorb our entire production. However, with 20 per cent less hogs in the country today, as compared to just prior to the war and with beef and mutton prices at a much higher level, even though export trade has fallen off, we cannot believe the big slump in hog prices experienced last year was justifiable."

Orderly marketing, which he termed the most important factor in stabilizing values, not only is a realization, but in 1927 prevented sudden dumping of vast supplies of live stock on the markets.

Concerts will be given in Manitowish, Sheboygan, Milwaukee Auditorium, Shorewood, Milwaukee Y. M. C. A., Kenosha, Chicago, Elgin, Rockford, Beloit, Janesville, Madison, Jefferson, and a home concert on their return to Appleton.

## GIVE CERTIFICATES TO SHIOCTON GIRLS

Seventeen Students Complete  
Course in Infant Hygiene at  
Graded School

Seventeen seventh and eighth grade girls students at the state graded school at Shiocton will receive certificates this week from the state board of health, signifying they have completed the state course in infant hygiene. Miss Marie Klein, county nurse, will distribute the certificates.

According to Miss Klein there are nine rural schools in Outagamie county which have included the infant hygiene class in their regular curriculum but the Shiocton class is the first to complete the course.

Classes are taught once or twice a week by the teacher of the school, depending on the amount of time to spare. Material furnished by the bureau of child welfare of the state board of health is used in the course. The children are taught how to feed and bathe infants. The course includes instructions in the general care of babies, according to Miss Klein, and is designed so that the girls can help their parents care for smaller brothers and sisters at home and also to give them training for future work.

Miss Mable J. Agnew is the teacher of the school at Shiocton. Following

are the names of the girls who will receive certificates: Gretchen Kroeger, Ellen Peabody, Marjorie Genske, Beulah Johnson, Bernice Becker, Marion Towne, Julia Cramer, Florence Beyer, Evelyn Schmidt, Gwendolyn Locke, Rosa Peep, Lorraine Andrews, Fern Booth, Lorraine Thompson, Betty Locke, Arla Valentine and June Pool.

## WHAT A DOCTOR KNOWS ABOUT CONSTIPATION

There is a way of overcoming the tendency to constipation. And here is how you can PROVE it.

The next time your bowels need any assistance, don't take the first laxative that comes to mind. Take one the druggist can assure you is made with CASCARETS. Just as effective as using force, and it's good for the system. Indeed, it helps make good blood. For cascara is nothing but the bark of a tree. The Indians chew this bark, and live to an old age without a day's sickness.

What happens when you constipate the bowels? They will usually function well for SEVERAL DAYS. One more dose—no larger, and perhaps smaller than the first—and the bowels function of their own accord for a still longer time. Until you don't feel

the need of any aid of any sort for weeks-on-end.

So, the only habit you get from cascara is that of natural and normal regularity. How different from things one must usually repeat on the morrow! Cascara is the ideal laxative; and the familiar little candy cascaret is doubtless its ideal form. Children beg for these tasty tablets, and many men and women wouldn't think of taking ANYTHING else for the purpose. And EVERY drug store has them.

## The Fair Store is the reason for The Fair Store's Progress.

Fair Store Confidence  
is based on

Moderate Prices.

At the Fair Store you can't buy "cheap" merchandise; but you can buy GOOD merchandise at low prices. Our aim is never to be undersold, quality for quality. Co-operative buying keeps our prices low.

Fair Store Confidence  
is based on

Good Values.

Value is determined, not by what you pay for an article when you buy it, but by what it has cost you when you're through with it. Our customers know they're going to get good values when they buy at the Fair Store.

Fair Store Confidence  
is based on

Truthful Advertising.

Fair Store advertising attempts never to mislead you; always to state facts simply and clearly; never to exaggerate; preferably to understate rather than overstate the merits of our merchandise.

Fair Store Confidence  
is based on

Dependable Merchandise.

The Fair Store never knowingly purchases "imperfects", "irregulars", "seconds" or "substandards". The Fair Store stands back of all merchandise bought at its store to give an amount of service proportionate to the price paid.

Fair Store Confidence  
is based on

Right Styles.

Our New York office keeps new styles coming to us constantly. Our aim is to have nothing extreme, yet always to be in accord with the mode, and always in good taste. We take heavy sacrifices, when necessary, to clear our stocks of style merchandise at the end of the season, thus assuring you of a minimum of last season's style merchandise.

Fair Store Confidence  
is based on

Courteous Service.

Fair Store salespeople are courteous, intelligent, helpful, honest, and painstaking. Whether you are in to buy, or are "just looking", you are equally welcome.
